I. BBH PARTNER FUND—INTERNATIONAL EQUITY SUMMARY

INVESTMENT OBJECTIVE

The investment objective of the BBH Partner Fund – International Equity (the “Fund”) is to provide investors with long-term maximization of total return, primarily through capital appreciation.

FEES AND EXPENSES OF THE FUND

The table below describes the fees and expenses that you may pay if you buy, hold, and sell the Fund’s Class I Shares. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and expense example below.

Shareholder Fees

(Fees paid directly from your investment)

	<u>Class I</u>
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (Load)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None
Redemption Fee on shares held less than 30 days after purchase (as a percentage of amount redeemed, if applicable)	2.00%
Exchange Fee	None

Annual Fund Operating Expenses

(Expenses that you pay each year as a percentage of the value of your investment)

	<u>Class I</u>
Management Fees	0.65%
Distribution (12b-1) Fee	None
Other Expenses	<u>0.03%</u>
Total Annual Fund Operating Expenses	<u>0.68%</u>

EXAMPLE

This example is intended to help you compare the cost of investing in the Fund's Class I Shares to the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund's Class I Shares for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the operating expenses of the Fund's Class I Shares remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class I Shares	\$69	\$217	\$378	\$846

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example above, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 86% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGIES

Under normal circumstances, at least 80% of the net assets of the Fund, plus any borrowings for investment purposes, are invested in equity securities of companies in the developed and emerging markets of the world, excluding the United States. Developed markets are those markets included in the Morgan Stanley Capital International—Europe, Australasia, and Far East Index (“MSCI-EAFE”) and Canada. The Fund may invest up to 35% of its assets, at the time of purchase, in emerging markets of the world. An emerging market is generally considered to be a securities market located in any country that is defined as having an emerging or developing economy by the World Bank or its related organizations, or the United Nations or its authorities. The Fund will primarily invest in equity securities of companies with large market capitalizations.

Brown Brothers Harriman & Co. (“BBH&Co.”), through a separately identifiable department (“Investment Adviser”), employs a “manager of managers” investment approach, whereby it allocates the Fund’s assets to the Fund’s sub-adviser, Select Equity Group, L.P. (“Sub-adviser”). Subject to the general supervision by the Fund’s Board of Trustees (the “Board”), the Investment Adviser oversees the Sub-adviser and evaluates its performance results. The Investment Adviser reviews portfolio performance, characteristics and changes in key personnel of the Sub-adviser. The Sub-adviser is primarily responsible for the day-to-day management of the Fund’s portfolio, including purchases and sales of individual securities. However, the Investment Adviser may, when deemed appropriate, manage all or a portion of the Fund’s assets according to the Fund’s principal investment strategies.

The Fund buys and sells securities denominated in currencies other than the U.S. dollar. Interest, dividends and sale proceeds on such securities are received in currencies other than the U.S. dollar. The Fund enters into foreign currency exchange transactions from time to time to convert to and from different foreign currencies and to convert foreign currencies to and from the U.S. dollar. The Fund may purchase currency forwards and/or futures, which are derivatives, for the purpose of hedging the value of securities purchased or intended to be purchased.

Investment Process: The Sub-adviser will focus on identifying attractive businesses and will invest opportunistically in these businesses when it believes that good long-term returns can be achieved. The Sub-adviser defines attractive businesses as those that have achieved leading and defensible market positions through the creation of enduring franchise value. As part of the Fund’s investment process, the Sub-adviser considers environmental, social and governance (“ESG”) factors for each investment in the portfolio. ESG factors include, but are not limited to the environmental and social impact of the issuer, as well as the issuers instituted governance programs. They are, in the view of the Sub-adviser, both well positioned for long term growth and resilient in difficult economic environments. The Sub-adviser employs intensive and rigorous fundamental equity research in order to identify these investment opportunities.

The Sub-adviser may sell securities for a variety of reasons, such as to secure gains, limit losses or redeploy assets into more promising opportunities. The Fund may, from time to time, invest in a limited number of issuers.

PRINCIPAL RISKS OF THE FUND

The principal risks of investing in the Fund and the circumstances reasonably likely to adversely affect an investment are listed and described below. The share price of the Fund changes daily, based on market conditions and other factors. A shareholder may lose money by investing in the Fund. There can be no assurance that the Fund will achieve its investment objective.

Equity Securities Risk:

Equity securities risk is the risk that prices of equity securities rise and fall daily due to factors affecting individual companies, particular industries or the equity market as a whole.

Market Risk:

The price of a security may fall due to changing economic, political, regulatory or market conditions, or due to a company's or issuer's individual situation. Natural disasters, the spread of infectious illness and other public health emergencies, recession, terrorism and other unforeseeable events may lead to increased market volatility and may have adverse effects on world economies and markets generally.

Investment Risk:

Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time.

Foreign Investment Risk:

Investing in securities of foreign-based companies involves risks not typically associated with investing in securities of companies organized and operated in the United States. These risks include adverse political, social and economic developments abroad, different kinds and levels of market and issuer regulations, and the different characteristics of overseas economies and markets. These factors can make foreign investments more volatile and potentially less liquid than U.S. investments.

Management Risk:

The Fund is actively managed and its success depends upon the investment skills and analytical abilities of the Sub-adviser to develop and effectively implement strategies that achieve the Fund's investment objective. Subjective decisions made by the Sub-adviser may cause the Fund to incur losses or to miss profit opportunities on which it may otherwise have capitalized.

Currency Exchange Rate Risk:

Because the Fund invests in securities denominated in, or providing exposure to, non-U.S. currencies and the Fund's net asset value per share ("NAV") is determined on the basis of U.S. dollars, the U.S. dollar value of your investment in the Fund may go down if the value of the local currency of the non-U.S. markets in which the Fund invests depreciates against the U.S. dollar. Currency exchange rates can be very volatile and can change quickly and unpredictably.

Large Cap Company Risk:

Because the Fund invests in large cap company securities, it may underperform other funds during periods when the Fund's large cap securities are out of favor.

Limited Portfolio Holdings Risk:

Although the Fund is a diversified fund and as such intends to meet the diversification requirements of the Investment Company Act of 1940 ("1940 Act"), the Fund may, from time to time, invest in a limited number of issuers. As a result, the appreciation or depreciation of any one security held by the Fund will have a greater impact on the Fund's net asset value than it would if the Fund invested in a larger number of securities. Although that strategy has the potential to generate attractive returns over time, it also increases the Fund's volatility and may lead to greater losses.

Emerging Markets Risk:

Emerging markets involve risks greater than those generally associated with investing in more developed foreign markets. These less developed markets can be subject to

greater social, economic, regulatory and political uncertainties and can be extremely volatile.

Derivatives Risk:

Derivatives, including forwards and futures, may be riskier than other types of investments and may increase the volatility of the Fund. Derivatives may be sensitive to changes in economic and market conditions and may create leverage, which could result in losses that significantly exceed the Fund's original investment. Derivatives expose the Fund to counter-party risk, which is the risk that the derivative counterparty will not fulfill its contractual obligations (and includes credit risk associated with the counterparty). Certain derivatives are synthetic instruments that attempt to replicate the performance of certain reference assets. With regard to such derivatives, the Fund does not have a claim on the reference assets and is subject to enhanced counterparty risk. Derivatives may not perform as expected, so the Fund may not realize the intended benefits. When used for hedging, the change in value of a derivative may not correlate as expected with the security or other risk being hedged. In addition, given their complexity, derivatives expose the Fund to risks of mispricing or improper valuation.

Capital Controls Risk:

Capital controls imposed by foreign governments in response to economic or political events may impact the ability of the Fund to buy, sell or otherwise transfer securities or currency, may adversely affect the trading market and price for shares of the Fund, and may cause the Fund to decline in value.

Large Shareholder Risk:

Asset allocation decisions, particularly large redemptions made by BBH&Co., whose discretionary investment advisory clients make up a large percentage of the Fund's shareholders, may adversely impact remaining Fund shareholders.

FUND PERFORMANCE

The following bar chart and table give an indication of the risks involved with an investment in the Fund. The bar chart shows changes in the performance of the Fund's Class I Shares from year to year. The table shows how the average annual returns of the Fund's Class I Shares for the periods indicated compared to a broad-based market index. One cannot invest directly in an index.

When you consider this information, please remember that the Fund's performance (before and after taxes) in past years is not necessarily an indication of how the Fund will perform in the future. Updated information on the Fund's performance can be obtained by visiting www.bbhffunds.com or can be obtained by phone at 1-800-575-1265.

Total Return for Class I Shares (% Per Calendar Year)

Highest Performing Quarter: 22.07% in 2nd quarter of 2020

Lowest Performing Quarter: (17.93)% in 1st quarter of 2020

Average Annual Total Returns (For the periods ended December 31, 2021)

The Fund's performance figures assume that all distributions were reinvested in the Fund. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>
Class I Shares			
Return Before Taxes	1.68%	12.31%	9.04%
Return After Taxes on Distributions	(1.65)%	10.47%	7.98%
Return After Taxes on Distributions and Sale of Fund Shares	2.45%	9.39%	7.20%
MSCI-EAFE Index			
(reflects no deduction for fees, expenses or taxes)	11.26%	9.55%	8.03%

INVESTMENT ADVISER

BBH&Co., through a separately identifiable department, serves as the Fund's investment adviser. Select Equity Group, L.P. serves as the sub-adviser to the Fund. The following individuals are responsible for the day-to-day management of the Fund:

Portfolio Managers

Sub-Adviser	Portfolio Management Team Members	Fund Manager Since
Select Equity Group, L.P. 380 Lafayette Street New York, New York 10003	Chad Clark Senior Investment Team Member	2017
	Brian Vollmer Senior Investment Team Member	2017
	Matthew Pickering Senior Investment Team Member	2017
	Jonathan Allen Senior Investment Team Member	2017
	Loren Lewallen Senior Investment Team Member	2017

PURCHASE AND SALE OF FUND SHARES

Shares of the Fund may be purchased or sold (redeemed) on any business day (normally any day when the New York Stock Exchange (“NYSE”) is open). Shareholders may redeem shares held directly in the name of a shareholder on the books of the Fund by submitting a redemption request to the Fund’s transfer agent, ALPS Fund Services, Inc. (“Transfer Agent”). If shares are held by a bank, broker or other financial intermediary with which the Fund or its shareholder servicing agent has contracted (“Financial Intermediary”) on behalf of such shareholder, then shareholders must redeem shares through such Financial Intermediary. Investors are only eligible to purchase shares of the Fund as described in the “Purchase of Shares” section of the Prospectus.

Investment Minimums

Minimum initial and subsequent purchase amounts may vary.

	<u>Class I</u>
Initial Purchases	\$10,000
Subsequent Purchases	\$1,000

TAX INFORMATION

The Fund’s distributions are generally taxable to you as ordinary income, qualified dividend income, capital gains, or a combination of the three.

PAYMENTS TO FINANCIAL INTERMEDIARIES

If you purchase shares of the Fund through a Financial Intermediary, BBH&Co. may pay the Financial Intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the Financial Intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your Financial Intermediary’s website for more information.

For shareholders with a discretionary investment management account managed by BBH&Co. (“BBH&Co. Account”), BBH&Co. will include the value of the shareholder’s investment in the Fund when calculating the advisory fee applicable to such shareholder’s BBH&Co. Account, which may result in the shareholder paying a higher overall fee to BBH&Co. on the shareholder’s investment in the Fund.

II. INVESTMENT OBJECTIVE, PRINCIPAL INVESTMENT STRATEGIES AND PRINCIPAL RISKS

INVESTMENT OBJECTIVE

The investment objective of the Fund is to provide investors with long-term maximization of total return, primarily through capital appreciation. The investment objective may be changed by the Board without vote of the shareholders. There can be no assurance that the Fund will achieve its investment objective.

PRINCIPAL INVESTMENT STRATEGIES

Under normal circumstances, at least 80% of the net assets of the Fund, plus any borrowings for investment purposes, will be invested in equity securities of companies in the developed and emerging markets of the world, excluding the United States. Developed markets are those markets included in the MSCI-EAFE Index and Canada. The Fund may invest up to 35% of its assets, at the time of purchase, in emerging markets of the world. An emerging market is generally considered to be a securities market located in any country that is defined as having an emerging or developing economy by the World Bank or its related organizations, or the United Nations or its authorities. Although the Fund is expected to invest primarily in common stocks, it may also purchase other securities with equity characteristics, including securities convertible into common stock, rights and warrants. The

Fund may purchase these equity securities directly or in the form of American Depository Receipts (“ADRs”), Global Depository Receipts or other similar securities representing securities of foreign-based companies, national security exchanges or over-the-counter markets. The Fund will primarily invest in equity securities of companies with large market capitalizations.

The Investment Adviser employs a “manager of managers” investment approach, whereby it allocates the Fund’s assets to the Sub-adviser. Subject to the general supervision by the Fund’s Board, the Investment Adviser oversees the Sub-adviser and evaluates its performance results. The Investment Adviser reviews portfolio performance, characteristics and changes in key personnel of the Sub-adviser. Quantitative evaluations, including evaluations of performance and portfolio characteristics, is performed at least quarterly. The Sub-adviser is primarily responsible for the day-to-day management of the Fund’s portfolio, including purchases and sales of individual securities. Other sub-advisers may be added in the future to complement the Sub-adviser’s investment style. However, the Investment Adviser may when it deems appropriate, manage all or a portion of the Fund’s assets according to the Fund’s principal investment strategies.

Investment Process: The Sub-adviser will focus on identifying attractive businesses and will invest opportunistically in those businesses when it believes that good long-term returns can be achieved. The Sub-adviser defines attractive businesses as those that have achieved leading and defensible market positions through the creation of enduring franchise value. They are, in the view of the Sub-adviser, both well positioned for long term

growth and resilient in difficult economic environments. The Sub-adviser employs intensive and rigorous fundamental equity research in order to identify these investment opportunities. The Fund may, from time to time, invest in a limited number of issuers. The Sub-adviser's investment approach includes consideration of ESG criteria which enhances its ability to manage risk and to achieve its long-term investment objectives.

The Fund buys and sells securities denominated in currencies other than the U.S. dollar. Interest, dividends and sale proceeds on such securities are received in currencies other than the U.S. dollar. The Fund enters into foreign currency exchange transactions from time to time to convert to and from different foreign currencies and to convert foreign currencies to and from the U.S. dollar. The Fund may purchase currency forwards and/or futures for the purpose of hedging the value of securities purchased or intended to be purchased.

In response to adverse market, economic, political and other conditions, the Sub-adviser may make temporary investments for the Fund that are not consistent with its investment objective and principal investment strategies. Such investments may prevent the Fund from achieving its investment objective.

Because the Fund refers to equity investments in its name, it will notify shareholders at least 60 days in advance of any changes in its investment policies that would enable the Fund to invest less than 80% of its assets in equity securities under normal circumstances.

The Fund seeks to generate attractive returns over time but does not attempt to mirror a benchmark or an index.

PRINCIPAL RISKS OF THE FUND

The principal risks of investing in the Fund and the circumstances reasonably likely to adversely affect an investment are listed and described below. The share price of the Fund changes daily, based on market conditions and other factors. A shareholder may lose money by investing in the Fund. There can be no assurance that the Fund will achieve its investment objective.

Equity Securities Risk:

Equity securities risk is the risk that prices of equity securities rise and fall daily. Price movements may occur due to factors affecting individual companies, such as the issuance of an unfavorable earnings report, or other events affecting particular industries or the equity market as a whole.

Market Risk:

The price of a security may fall due to changing economic, political, regulatory or market conditions, or due to a company's or issuer's individual situation. Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the market generally and on specific securities. For example, since December 2019, a novel strain of coronavirus has spread globally, which resulted in the temporary closure of many corporate offices, retail stores, manufacturing facilities and factories, and other businesses across the world. As the extent of the impact on global markets from the coronavirus is difficult to predict, the extent to which the coronavirus may negatively affect the Fund's performance

or the duration of any potential business disruption is uncertain. Any potential impact on performance will depend to a large extent on future developments and new information that may emerge regarding the duration and severity of the coronavirus and the actions taken by authorities and other entities to contain the coronavirus or treat its impact.

Investment Risk:

As with all investments, an investment in the Fund is subject to investment risk. Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time. The share price of the Fund changes daily, based on market conditions and other factors. The Fund should not be relied upon as a complete investment program.

Foreign Investment Risk:

Investing in equity securities of foreign-based companies involves risks not typically associated with investing in equity securities of companies organized and operated in the United States. These risks include changes in political, social or economic conditions, diplomatic relations, confiscatory taxation, expropriation, nationalization, limitation on the removal of funds or assets, or imposition of (or change in) exchange control or tax regulations. In some foreign countries, less information is available about foreign issuers and markets because of less rigorous accounting and regulatory standards than in the United States. In addition, foreign stock exchanges and brokers generally have less government supervision and regulation than in the United States. Dividends and interest on foreign securities may be subject to foreign withholding taxes, which may reduce the net return to Fund shareholders. Foreign securities are often denominated in a currency other than the U.S. dollar, which will subject the Fund to the risks associated with fluctuations in currency values. Currency fluctuations could offset investment gain or add to investment losses. All of these factors can make foreign investments more volatile and potentially less liquid than U.S. investments.

The Fund's assets may be concentrated in a single country or countries located in the same geographic region. The Fund assumes the risk that changing economic, regulatory, political or social conditions affecting the particular country or geographical area in which the Fund focuses its investments could have a significant impact on its investment performance and could ultimately cause the Fund to underperform, or be more volatile than, other funds that invest more broadly.

Management Risk:

The Fund is actively managed and its success depends upon the investment skills and analytical abilities of the Sub-adviser to develop and effectively implement strategies that achieve the Fund's investment objective. Subjective decisions made by the Sub-adviser may cause the Fund to incur losses or to miss profit opportunities on which it may otherwise have capitalized.

Currency Exchange Rate Risk:

The Fund invests a significant portion of its assets in investments denominated in non-U.S. currencies, or in securities that provide exposure to such currencies, currency exchange rates or interest rates denominated in such currencies. Changes in currency exchange rates and the relative value of non-U.S. currencies will affect the value of the Fund's investment and the value of your Fund shares. Because the Fund's NAV is determined on the basis of U.S. dollars, the U.S. dollar value of your investment in the Fund may go down if the value of the local currency of the non-U.S. markets in which the Fund invests depreciates against the U.S. dollar. This is true even if the local currency value of securities in the Fund's holdings goes up.

Conversely, the dollar value of your investment in the Fund may go up if the value of the local currency appreciates against the U.S. dollar. Currency exchange rates can be very volatile and can change quickly and unpredictably. As a result, the value of an investment in the Fund may change quickly and without warning and you may lose money.

Large Cap Company Risk:

Because the Fund invests in large cap company securities, it may underperform other funds during periods when the Fund's large cap securities are out of favor.

Limited Portfolio Holdings Risk:

Although the Fund is a diversified fund and as such intends to meet the diversification requirements of the 1940 Act, the Fund may, from time to time, invest in a limited number of issuers. As a result, the appreciation or depreciation of any one security held by the Fund will have a greater impact on the Fund's net asset value than it would if the Fund invested in a larger number of securities. Although that strategy has the potential to generate attractive returns over time, it also increases the Fund's volatility and may lead to greater losses.

Emerging Markets Risk:

The Fund may invest up to 35% of its assets in securities of issuers based in developing countries. These investments carry all of the risks of investing in securities of foreign issuers outlined in this section to a heightened degree. These heightened risks include: (i) expropriation, confiscatory taxation, nationalization, and less social, political and economic stability; (ii) the small current size of securities markets and lower trading volume; (iii) certain national policies related to national interests, which may restrict the Fund's investment opportunities; and (iv) the absence of developed legal structures governing private or foreign investment and private property.

Derivatives Risk:

Derivatives, including forwards and futures, may be riskier than other types of investments and may increase the volatility of the Fund. Derivatives may be sensitive to changes in economic and market conditions and may create leverage, which could result in losses that significantly exceed the Fund's original investment. Derivatives expose the Fund to counter-party risk, which is the risk that the derivative counterparty will not fulfill its contractual obligations (and includes credit risk associated with the counterparty). Certain derivatives are synthetic instruments that attempt to replicate the performance of certain reference assets. With regard to such derivatives, the Fund does not have a claim on the reference assets and is subject to enhanced counterparty risk. Derivatives may not perform as expected, so the Fund may not realize the intended benefits. When used for hedging, the change in value of a derivative may not correlate as expected with the security or other risk being hedged. In addition, given their complexity, derivatives expose the Fund to risks of mispricing or improper valuation.

Capital Controls Risk:

Economic conditions, such as volatile currency exchange rates and interest rates, political events and other conditions may, without prior warning, lead to intervention by the governments of foreign countries and the imposition of "capital controls." Capital controls include the prohibition of, or restrictions on, the ability to transfer currency, securities or other assets. Levies may be placed on profits repatriated by foreign entities (such as the Fund). Capital controls may impact the ability of the Fund to buy, sell or otherwise transfer securities or currency, may adversely

affect the trading market and price for shares of the Fund, and may cause the Fund to decline in value.

Large Shareholder Risk:

From time to time, an investment adviser, including BBH&Co., may allocate a portion of the assets of its discretionary clients to the Fund. There is a risk that if a large percentage of Fund shareholders consists of such investment adviser’s discretionary clients, such asset allocation decisions, particularly large redemptions, may adversely impact remaining Fund shareholders.

Investments in the Fund are neither insured nor guaranteed by the U.S. Government. Shares of the Fund are not deposits or obligations of, or guaranteed by, BBH&Co. or any other bank, and the shares are not insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other federal, state or other governmental agency.

PORTFOLIO HOLDINGS

Information concerning the Fund’s portfolio holdings is available on the Fund’s website at www.bbhfunds.com. A complete listing of the Fund’s portfolio holdings as of the end of each month is posted on the website approximately 15 days after the end of the month and remains posted until replaced by the information for the succeeding month.

A description of the Fund’s policies and procedures with respect to the disclosure of the Fund’s portfolio securities is available in the Fund’s Statement of Additional Information (“SAI”).

III. MANAGEMENT OF THE FUND

BBH&Co., a New York limited partnership, located at 140 Broadway, New York, NY 10005 and established in 1818, serves as the investment adviser to the Fund through a separately identifiable department. The Investment Adviser is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940.

BBH&Co. provides a broad range of investment management services for customers in the United States and abroad. As of December 31, 2021, BBH&Co. managed total assets of approximately \$94.5 billion, \$2.4 billion of which represented total net assets in the Fund.

The Investment Adviser employs a “manager-of-managers” investment approach, whereby it allocates the Fund’s assets to the Sub-adviser. Subject to the general supervision by the Fund’s Board, the Investment Adviser oversees the Sub-adviser and evaluates its performance results. The Investment Adviser reviews portfolio performance, characteristics and changes in key personnel of the Sub-adviser. The Sub-adviser is primarily responsible for the day-to-day management of the Fund’s portfolio, including purchases and sales of individual securities. However, the Investment Adviser may, when it deems appropriate, manage all or a portion of the Fund’s assets according to the Fund’s principal investment strategies.

In addition to a continuous investment program, BBH&Co. serves as the Fund’s administrator, which provides administrative services to the Fund, such as shareholder communications and tax services.

Investment Advisory and Administrative Fee

For investment advisory and administrative services, the Investment Adviser receives a combined fee, computed daily and payable monthly, equal to 0.65% per annum for the first \$3 billion and 0.60% per annum for amounts over \$3 billion of the average daily net assets of the Fund. This fee compensates the Investment Adviser for its services and its expenses. The Investment Adviser may from time to time voluntarily waive all or a portion of its advisory and administrative fee from the Fund. For the most recent fiscal year, the Fund paid the Investment Adviser 0.65% of the Fund's average daily net assets. The Investment Adviser pays a sub-advisory fee to the Sub-adviser out of its own assets. The Fund is not responsible for paying any portion of the sub-advisory fee to the Sub-adviser. A discussion of the Board's most recent approval of the Fund's investment advisory and sub-advisory agreements will be available in the Fund's Semi-Annual Report for the period ending April 30, 2022.

Pursuant to an exemptive order the Fund and BBH&Co. received from the SEC, the Investment Adviser may select and replace sub-advisers and amend sub-advisory agreements without obtaining shareholder approval.

The Sub-Adviser

Select Equity Group, L.P., located at 380 Lafayette Street, New York, New York 10003, serves as the Fund's investment sub-adviser. Pursuant to a sub-advisory agreement with the Investment Adviser, and subject to the general supervision of the Board and the Investment Adviser, the Sub-adviser makes the day-to-day investment decisions for the Fund, places the purchase and sale orders for the portfolio transactions of the Fund, and generally manages the Fund's portfolio of investments.

Portfolio Managers

Certain information about the portfolio management team for the Fund are set forth below. Each portfolio manager or member of the portfolio management team has worked with the Fund since 2017.

Mr. Chad Clark joined the Sub-adviser in August 2010. He oversees the Sub-adviser's international strategies. Mr. Clark is a member of the Sub-adviser's Management Committee. Prior to joining the Sub-adviser, Mr. Clark spent 14 years at Harris Associates, where he was a Partner and co-managed the Oakmark International Small Cap Fund and Harris International Value L.P. Prior to Harris Associates, he was an Analyst in Corporate Finance at William Blair & Company. Mr. Clark is a CFA charterholder. Mr. Clark received a B.S. from Carnegie Mellon University (summa cum laude).

Mr. Brian Vollmer began at the Sub-adviser as an intern in 2005 and joined the Sub-adviser full time in August 2006. Prior to joining the Sub-adviser, Mr. Vollmer worked as a private equity Investment Analyst for Hicks, Muse, Tate & Furst. Prior to Hicks, Muse, Tate & Furst, he worked in the Investment Banking Division at Goldman Sachs. Mr. Vollmer received a B.S. from the University of Virginia (with distinction) and an M.B.A. from the Stanford Graduate School of Business, where he graduated as an Arjay Miller Scholar.

Mr. Matthew Pickering joined the Sub-adviser in December 2010. Prior to joining the Sub-adviser, Mr. Pickering was an Analyst with Harris Associates for four years. Prior to Harris Associates, he worked for six years as an Analyst and Associate Portfolio Manager with Institutional Capital. Mr. Pickering is a CFA charterholder. Mr. Pickering received a B.S. from Miami University (magna cum laude).

Mr. Jonathan Allen joined the Sub-adviser in April 2010. Prior to joining the Sub-adviser, Mr. Allen was a Principal, Portfolio Manager and Analyst with Clay Finlay for

16 years. Mr. Allen is a CFA charterholder. Mr. Allen received a B.A. from the University of Pennsylvania.

Mr. Loren Lewallen began at Sub-adviser as an intern in 2006 and joined the Sub-adviser full time in September 2007. Mr. Lewallen is a CFA charterholder. Mr. Lewallen received a B.A. from Columbia University (magna cum laude).

The Fund's SAI provides additional information about the portfolio managers' compensation, management of other accounts, and ownership of shares of the Fund.

IV. SHAREHOLDER INFORMATION

Fund Valuation Policies

The Fund's net asset value per share ("NAV") is normally determined once daily at 4:00 p.m., Eastern Time on each day that the equity market of the NYSE is open for regular trading ("Business Day"). The Fund does not calculate its NAV on days the NYSE is closed for trading. Information that becomes known to the Fund or its agents after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of a security or the NAV determined earlier that day. The Fund reserves the right to change the time its NAV is calculated if the Fund closes earlier, or as permitted by the SEC.

The determination of the Fund's NAV is made by subtracting from the value of the total assets of the Fund the amount of its liabilities and dividing the difference by the number of shares outstanding at the time the determination is made. The value of the Fund's portfolio may change on days when the Fund is not for business and is not available for purchase or redemption of Fund shares.

For purposes of calculating NAV, portfolio securities and other assets for which market quotes are readily available are valued at market value. Market

value is generally determined on the basis of official closing prices or the last reported sales prices, or if no sales are reported, based on quotes obtained from established market makers or prices (including evaluated prices) supplied by the Fund's approved pricing services, quotation reporting systems and other third-party sources, a foreign (non-U.S.) equity security traded on a foreign exchange or on more than one exchange is typically valued using pricing information from the exchange considered by the Investment Adviser to be the primary exchange. A foreign (non-U.S.) equity security will be valued as of the close of trading on the foreign exchange, or the NYSE close, if the NYSE close occurs before the end of trading on the foreign exchange. In addition, foreign currency exchange rates are generally determined as of the close of business on the NYSE.

The Fund generally values fixed income securities according to prices furnished by brokers and dealers or an independent pricing service using a date reflecting the earlier closing of the principal markets for those securities. Prices obtained from pricing services may be based on, among other things, information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Fixed income securities with remaining maturities of less than 60 days at the time of purchase are valued at amortized cost, which approximates fair value.

Investments for which market quotations or market-based valuations are not readily available, or are available but deemed unreliable, are valued at fair value in accordance with procedures approved by the Board. The Board has delegated to the Investment Adviser the responsibility for

applying the Board-approved fair valuation procedures. Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information, bid/ask information, broker quotes, pricing services prices), including where events occur after the close of the primary exchange or principal market, but prior to the NYSE close, that materially affect the price of the security or other asset. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, the exchanges or markets on which the securities trade are not open for trading for the entire day and no other market prices are available. The Fund may use a systematic fair value model provided by an independent third party to value foreign securities.

Fair value represents a good faith approximation of the value of a security. The fair value of one or more securities may not, in retrospect, be the price at which those assets could have been sold during the period in which the particular fair values were used in determining the Fund's NAV.

Revenue Sharing

BBH&Co. may make payments for marketing, promotional or related services provided by Financial Intermediaries that sell shares of the Fund. These payments are often referred to as "revenue sharing payments." The level of such payments may be based on factors that include, without limitation, differing levels or types of services provided by the intermediary, the expected level of assets or sales of shares, access to an intermediary's personnel and other factors. Revenue sharing payments are paid from BBH&Co.'s own legitimate profits and its own resources (not from the Fund). In some circumstances, such payments may create an incentive for a Financial Intermediary or its employees or associated persons to recommend or sell shares of a particular Fund to you instead of recommending shares offered by competing investment companies.

Contact your Financial Intermediary for details about revenue sharing payments.

Account Transactions

Purchase of Shares

The Fund offers Class I Shares through this Prospectus representing interests in a single portfolio of securities. Investors are only eligible to purchase shares of the Fund as described below.

The following individuals (referred to as “Eligible Investors”) may invest in the Fund and/or reinvest dividends and capital gains distributions from shares owned in the Fund:

- BBH&Co. private banking and/or private wealth management clients;
- investors with an agreement with Brown Brothers Harriman Investments, LLC or the Fund’s distributor permitting investment in the Fund;
- a Trustee or officer of the BBH Trust, or a partner or employee of BBH&Co. or its affiliates, or a member of the immediate family of any of those persons;
- an account for an employee benefit plan or retirement plan sponsored by BBH&Co.; and
- a partner, director, officer or employee of the Sub-adviser.

Eligible Investors may be asked to verify that they meet one of the eligibility requirements above prior to opening a new account in the Fund. The Fund may permit you to open a new account if the Fund reasonably believes that you are eligible. The Fund also may decline to permit you to open a new account if the Fund believes that doing so would not

be in the best interests of the Fund and its shareholders, even if you would be eligible to open a new account.

The Fund's ability to enforce the eligibility requirements listed above with respect to accounts held by financial intermediaries may vary depending on the systems capabilities of those intermediaries, applicable contractual and legal restrictions and cooperation of those intermediaries.

Additional information that applies to the offering:

An existing investor that does not meet the above eligibility requirements and has been a shareholder in the Fund is able to continue to remain an investor in the Fund (an "Existing Shareholder") and may continue to reinvest dividends or capital gains distributions from shares owned in the Fund; however, the Existing Shareholder may not purchase additional shares of the Fund, either directly or as the beneficial owner of shares held in another account.

For an Existing Shareholder, if all shares of the Fund in an Existing Shareholder's account are voluntarily redeemed or involuntarily redeemed, then the Existing Shareholder's account will be closed. Once closed, such former Existing Shareholders will not be able to reopen their accounts in the Fund. These repurchase restrictions, however, do not apply to investors listed above as eligible to continue to purchase even if the Eligible Investor would liquidate its entire position.

If the Fund receives a purchase order directly from an investor who is not eligible to purchase shares of the Fund, the Fund's transfer agent will attempt to contact the investor to determine whether he or she would like to purchase shares of another Fund or would prefer that the investment be returned. If the transfer agent cannot contact the investor within 30 days, the entire amount of the investment will be returned.

The Fund reserves the right to change these policies at any time. The Fund may from time to time, in its sole discretion, limit new purchases into the Fund or otherwise modify the eligibility requirements at any time.

The Fund offers its shares to Eligible Investors on a continuous basis at the current NAV without a sales charge. Eligible Investors may purchase shares on any day the Fund's NAV is calculated. The Fund executes purchases of its shares at the NAV next determined after the Fund receives the purchase order in good order. Generally, a purchase order is considered to be in good order when the purchase payment is converted to federal funds. The Fund reserves the right to determine the purchase orders for Fund shares that it will accept.

An Eligible Investor may place purchase orders for Fund shares directly through the Transfer Agent or through a Financial Intermediary. Such orders will be priced at the NAV next calculated after the Fund receives the payment, through the Transfer Agent, in good order. Such orders that are placed directly through the Transfer Agent are held directly in the investor's name on the books of the Fund and the investor is responsible for arranging for payment of the purchase price of Fund shares.

Those Eligible Investors who buy shares of the Fund through a Financial Intermediary that is authorized to place trades in Fund shares for their customers will have such shares held in the Financial Intermediary's name pursuant to arrangements made with that customer. Each Financial Intermediary arranges payment for Fund shares on behalf of its customers and may charge a transaction fee payable to the Financial Intermediary on the purchase of Fund shares.

Shares of the Fund have not been registered for sale outside the U.S. The Fund generally does not sell shares to investors residing outside the U.S., even if they are U.S. citizens or

lawful permanent residents, except to investors with U.S. military APO or FPO addresses.

Investment Minimums*

Minimum initial and subsequent purchase amounts may vary.

	<u>Class I**</u>
Initial Purchases	\$10,000
Subsequent Purchases	\$ 1,000

* The Fund may change these investment minimums from time to time. A Financial Intermediary may also establish and amend, from time to time, minimum initial and/or subsequent purchase requirements for its customers. The fund may waive the initial and subsequent investment minimums for purchases by financial intermediaries.

** The Fund has waived the investment minimums for all BBH&Co. Partners, employees, Fund Trustees and their respective family members, and partners, directors, officers or employees of the Sub-adviser, who wish to invest in the Fund's Class I Shares.

Redemption of Shares

The Fund executes a redemption request at the current NAV next calculated after the Fund receives the redemption request in good order. The Fund normally determines the Fund's NAV daily at 4:00 p.m. Eastern Time on each day that the equity markets of the NYSE are open for a regular day of trading. Under normal market conditions, redemption requests received in good order by 4:00 p.m. Eastern Time on any Business Day will be executed at that day's NAV. Orders accepted after 4:00 p.m. will be executed at the next day's NAV. Redemption requests accepted before 4:00 p.m. Eastern Time on any Business Day will typically be paid on the Business Day following the date on which the redemption request was received in good order. Redemption requests will be paid by federal funds wire transfer to the shareholder's designated account. In order to meet the redemption request, the Fund typically expects to use available cash (or cash equivalents) or to sell portfolio securities. These methods may be used during both normal and stressed market conditions. While the Fund typically makes payments of redemption

requests in cash, it has reserved the right to pay redemption proceeds by a distribution in-kind of portfolio securities when it deems appropriate.

How to Redeem Fund Shares

Shareholders must redeem shares held by a Financial Intermediary through that Financial Intermediary and follow the Financial Intermediary's procedures for redeeming Fund shares. For more information about how to redeem shares through a Financial Intermediary, contact the Financial Intermediary directly.

Shareholders may redeem shares held directly with the Fund by submitting a redemption request to the Transfer Agent. The Fund pays proceeds resulting from such redemption directly to the shareholder generally on the next Business Day after the redemption request is received in good order.

Redemption Fee

Fund shares that are redeemed within 30 days from the date of purchase will be subject to a redemption fee of 2.00% of the total redemption proceeds. The 30-day period shall commence on the next business day following the date your purchase order is received in good order by the Fund and shall apply to any redemption made on or before the 30th day from that date. The redemption fee is payable to the Fund and is intended to reduce the impact on remaining investors in the Fund of the costs incurred by the Fund in meeting redemption requests from investors who are not long-term investors. For purposes of determining whether the redemption fee applies, shares held the longest will be redeemed first. See "Frequent Trading Policy" below for more information.

The Fund may sell shares to some 401(k) plans, 403(b) plans, bank or trust company accounts, and accounts of certain financial institutions or intermediaries that do not apply the redemption fee to underlying shareholders, often because of administrative or systems limitations. From time to time, with the approval of the Investment Adviser, the redemption fee will not be assessed on redemptions in certain circumstances. For more information on the waiver of the redemption fee, see “Purchases and Redemptions” in the Fund’s SAI.

Redemptions by the Fund

The Fund has established a minimum account size of \$10,000 for Class I shares, which may be changed from time to time in its discretion. Except in circumstances where the minimum account size has been changed or waived, if the value of an account held directly with the Fund falls below the minimum account size because of a redemption of shares, the Fund reserves the right to redeem the shareholder’s remaining shares. If such remaining shares are to be redeemed, the Fund will notify the shareholder and will allow the shareholder 60 days to make an additional investment to meet the minimum requirement before the redemption is processed.

Each Financial Intermediary may establish its own minimum account requirements for its customers, which may be lower than those established for accounts held with the Fund.

Further Redemption Information

Redemptions of shares result in taxable events for a shareholder who may realize a gain or a loss.

The Fund has reserved the right to pay redemption proceeds by a distribution in-kind of a security or securities from the Fund’s portfolio (rather than cash). In the event that the Fund makes an in-kind distribution, you could incur brokerage and transaction charges when converting the securities to cash. Additionally, securities received through an in-kind redemption may be subject to market risk until such time as you can dispose of the securities. The

Fund does not expect to make in-kind distributions, but if it does, the Fund will pay, during any 90-day period, your redemption proceeds in cash up to either \$250,000 or 1.00% of the Fund's net assets, whichever is less. In the event that the Fund meets a redemption request through a distribution in-kind, the Fund will analyze a variety of factors when selecting securities, including, but not limited to, tax implications, liquidity implications, portfolio transaction costs, fees and other costs associated with the transaction.

The Fund may suspend a shareholder's right to receive payment with respect to any redemption or postpone the payment of the redemption proceeds for up to seven days and for such other periods as applicable laws may permit.

Frequent Trading Policy

Frequent or short-term trading into and out of the Fund, or time-zone arbitrage (i.e., the purchase and sale of Fund securities in order to profit from price discrepancies between the time the price of the portfolio security is determined and the time the Fund's NAV is computed), can have adverse consequences for the Fund and shareholders who use the Fund as a long-term investment vehicle. Such trading in significant amounts can disrupt the Fund's investment strategies (e.g., by requiring it to sell investments at inopportune times or maintain excessive short-term or cash positions to support redemptions), dilute the interests of other shareholders, increase brokerage and administrative costs and affect the timing and amount of taxable gains distributed by the Fund. Investors engaged in such trading may also seek to profit by anticipating changes in the Fund's NAV in advance of the time the NAV is calculated.

The Fund's Board has approved policies and procedures intended to discourage excessive frequent or short-term trading of the Fund's shares. As described above, the Fund imposes a 2.00% fee on redemptions of Fund shares made within 30 days from the date of purchase. The Board has not adopted any specific numerical restrictions on purchases and sales of Fund shares because certain legitimate strategies will not result in harm to the Fund or shareholders. The Fund also monitors trading in Fund shares in an effort to identify disruptive trading activity.

In addition, each agreement among the Fund, its distributor and a Financial Intermediary will contain representations concerning the Financial Intermediary's policies and procedures to monitor, deter and report instances of market timing.

No matter how the Fund defines its limits on frequent trading of Fund shares, other purchases and sales of Fund shares, not deemed to be frequent trading, may have adverse effects on the management of the Fund's portfolio and its performance.

The Fund believes that its redemption fees and restrictions on short-term trading should apply to all shareholders, regardless of the number or type of accounts in which shares are held. However, the Fund anticipates that limitations on its ability to identify trading activity to specific shareholders, including where shares are held through a Financial Intermediary in multiple or omnibus accounts, will mean that these restrictions may not be able to be applied uniformly in all cases.

The Investment Adviser may determine from the amount, frequency or pattern of purchases and redemptions or exchanges that a shareholder is engaged in excessive trading that is or could be detrimental to the Fund and other shareholders and may preclude the shareholder from making further purchases or exchanges of Fund shares. If your purchase or exchange order is rejected, you will not be able to execute that transaction, and the Fund will not be responsible for any losses you may suffer.

Dividends and Distributions

The Fund normally pays to shareholders substantially all of the Fund's net income and capital gains, if any, annually. The Fund may pay additional dividends and/or capital gains distributions in a given year to the extent necessary to avoid the imposition of federal income or excise tax on the Fund. The Fund pays dividends and capital gains distributions to shareholders of record as of the record date.

Unless a shareholder whose shares are held directly in the shareholder's name on the books of the Fund elects to have dividends and capital gains distributions paid in cash, the Fund automatically reinvests dividends and capital gains distributions in additional Fund shares without reference to the minimum subsequent purchase requirement. There are no sales charges for the reinvestment of dividends.

Each Financial Intermediary may establish its own policy with respect to the reinvestment of dividends and capital gains distributions in additional Fund shares.

Taxes

Please consult your personal tax adviser regarding your specific questions about federal, state and local income taxes. Below is a summary of some important tax issues that affect the Fund and its shareholders. This summary is based on current tax laws, which are subject to change. Unless you are a tax-exempt entity or your investment in Fund shares is made through a tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when the Fund makes distributions and when you sell Fund shares.

The Fund has elected and intends to qualify each year for the special tax treatment afforded to a regulated investment company (“RIC”) under the Internal Revenue Code of 1986, as amended. If the Fund maintains its qualification as a RIC and meets certain minimum distribution requirements, then the Fund is generally not subject to tax at the fund level on income and gains from investments that are timely distributed to shareholders. However, if the Fund fails to qualify as a RIC or to meet minimum distribution requirements it would result (if certain relief provisions were not available) in fund level taxation and consequently a reduction in income available for distribution to shareholders.

Distributions you receive from the Fund will generally be subject to federal income tax, and any state or local income taxes, whether or not you reinvest them in additional shares. Income distributions are generally taxable either as ordinary income or as qualified dividend income. Dividends reported by the Fund as qualified dividend income are generally taxable at reduced tax rates for non-corporate shareholders. Any distributions of net capital gain (the excess of the Fund’s net long-term capital gain over its net short-term capital loss) are taxable as long-term capital gains, regardless of how long you have owned your shares. Distributions of net short-term capital gains are generally taxable as ordinary income.

The Fund (or its administrative agent) will report to shareholders annually the U.S. federal income tax status of all Fund distributions.

In general, dividends may be reported by the Fund as qualified dividend income if they are attributable to qualified dividend income received by the Fund, which, in general, includes dividend income from taxable U.S. corporations and certain foreign corporations (i.e., certain foreign corporations incorporated in a possession of the U.S. or in certain countries with a comprehensive tax treaty with the U.S., and certain other foreign corporations if the stock with respect to which the dividend is paid is readily tradable on an established securities market in the U.S.), provided that the Fund satisfies certain holding period requirements in respect of the stock of such corporations and has not hedged its position in the stock in certain ways.

A dividend generally will not be treated as qualified dividend income if the dividend is received with respect to any share of stock held by the Fund for fewer than 61 days during the 121-day period beginning at the date which is 60 days before the date on which such share becomes ex-dividend with respect to such dividend or, in the case of certain preferred stock, for fewer than 91 days during the 181-day period beginning 90 days before such date. These holding period requirements will also apply to your ownership of Fund shares. The Fund's investment strategies may limit its ability to distribute dividends eligible to be treated as qualified dividend income.

Because the Fund invests in foreign securities, it may be subject to foreign withholding taxes with respect to dividends or interest it receives from sources in foreign countries. If certain requirements are met, the Fund may be eligible to make an election enabling shareholders to claim foreign tax credits or deductions, subject to certain limitations, with respect to certain taxes paid by the Fund. If the Fund makes the election, each shareholder will be required to include in income a share of those taxes and will treat that share of those taxes as though it had been paid directly by the shareholder. The shareholder may then either deduct the taxes deemed paid by it in computing its taxable income or, alternatively, use the foregoing information in calculating the foreign tax credit (subject to significant limitations) against the shareholder's federal income tax.

U.S. individuals with income exceeding certain thresholds are subject to a 3.8% tax on all or a portion of their "net investment income," which includes interest, dividends, and certain capital gains (including capital gains distributions and capital gains realized on the sale or exchange of shares

of the Fund). This 3.8% tax also applies to all or a portion of the undistributed net investment income of certain shareholders that are estates and trusts.

In general, your distributions are subject to federal income tax for the year in which they are paid. However, if the Fund declares a dividend in October, November or December, payable to shareholders of record in such a month, and pays it in January of the following year, shareholders will be taxed on the dividend as if it were received in the year in which it was declared.

You may want to avoid buying shares when the Fund is about to declare a dividend or other distribution because such dividends or other distributions will be taxable to you even though it may effectively be a return of a portion of your investment.

Each sale or redemption of Fund shares may be a taxable event. The gain or loss on the sale or redemption of the Fund's shares generally will be treated as a short-term capital gain or loss if you held the shares for 12 months or less or a long-term capital gain or loss if you held the shares for longer than 12 months. Any loss recognized by you on the sale or redemption of Fund shares with a tax holding period of six months or less will be treated as a long-term capital loss to the extent of any amounts treated as distributions to you of long-term capital gain with respect to such shares. The ability to deduct capital losses may be limited.

If you are neither a citizen nor a resident of the United States, the Fund will withhold federal income tax at the rate of 30% (or such lower rate as may be determined in accordance with any applicable treaty) on ordinary dividends and other payments that are subject to such withholding. The 30% withholding tax will not apply to dividends that the Fund reports as (a) interest-related dividends, to the extent such dividends are derived from the Fund's "qualified net interest income," or (b) short-term capital gain dividends, to the extent such dividends are derived from the Fund's "qualified short-term gain." "Qualified net interest income" is the Fund's net income derived from U.S.-source interest and original issue discount, subject to

certain exceptions and limitations. “Qualified short-term gain” generally means the excess of the net short-term capital gain of the Fund for the taxable year over its net long-term capital loss, if any.

If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you will be subject to backup withholding on your redemption proceeds, distributions and dividends. The backup withholding rate is 24%. Backup withholding will not, however, be applied to payments that have been subject to the 30% withholding tax applicable to shareholders who are neither citizens nor residents of the United States.

The tax treatment of the Fund and its shareholders residing in those states and local jurisdictions that have income tax laws might differ from the treatment under federal income tax laws. Therefore, distributions to shareholders may be subject to additional state and local taxes. Shareholders are urged to consult their personal tax advisors regarding any state or local taxes.

For additional information regarding taxes, please refer to the SAI.

V. FINANCIAL HIGHLIGHTS

The Financial Highlights tables are intended to help an investor understand the financial performance of the Fund's Class I Shares for the past five years. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by Deloitte & Touche LLP, whose report, along with the Fund's financial statements, are included in the Fund's annual report, which is available upon request.

Selected per share data and ratios for a Class I share outstanding throughout each period.

	For the years ended October 31,				
	2021	2020	2019	2018	2017*
Net asset value, beginning of year	\$17.73	\$16.15	\$14.90	\$16.75	\$14.46

BBH PRIVACY NOTICE

What does Brown Brothers Harriman & Co. do with your personal information?

WHY?
Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.
WHAT?
The types of personal information we collect, and share depend on the product or service you have with us. This information can include:
<ul style="list-style-type: none"> • Social Security number • Income • Account Balances • Transaction history • Credit history • Credit scores
When you are <i>no longer</i> our customer, we continue to share your information as described in this notice.
HOW?
All financial services companies need to share customers' personal information to run their everyday business. In the chart below, we list the reasons financial services companies can share their customers' personal information; whether BBH shares that information; and whether you can limit this sharing.

Reasons financial services companies can share your personal information	Does BBH share?	Can you limit BBH sharing?
For our everyday business purposes — such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes — to offer our products and services to you	Yes	No
For joint marketing with other financial companies	No	Does Not Share
For our affiliates' everyday business purposes — information about your transactions and experiences	Yes	No
For our affiliates' everyday business purposes — information about your creditworthiness	No	Does Not Share
For non-affiliates to market to you	No	Does Not Share

QUESTIONS? Call 800-285-5093 or go to [www. https://www.bbh.com/en-us/our-firm/policies-and-disclosures/privacy-policy](https://www.bbh.com/en-us/our-firm/policies-and-disclosures/privacy-policy).

Who we are	
Who is providing this notice?	Brown Brothers Harriman & Co. and affiliated entities (see “Other Important Information”).
What we do	
How does BBH protect my personal information?	To protect your personal information from unauthorized access and use, BBH uses security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.
How does BBH collect my personal information?	BBH collects your personal information, for example, when you: <ul style="list-style-type: none"> • Open an account • Make a deposit • Initiate a transaction • Transfer funds • Make modifications to your account
Why can't I limit all sharing?	Federal law gives you the right to limit only: <ul style="list-style-type: none"> • Sharing for affiliates’ everyday business purposes—information about your creditworthiness • Affiliates from using your information to market to you • Sharing for nonaffiliates to market to you State laws and individual companies may give you additional rights to limit sharing.
Definitions	
Affiliates	Companies related by common ownership or control. They can be financial and nonfinancial companies. <ul style="list-style-type: none"> • <i>Brown Brothers Harriman Investor Services Ltd., Brown Brothers Harriman (Luxembourg) S.C.A., Brown Brothers Harriman Fund Administration Services (Ireland) Limited., Brown Brothers Harriman (Poland) Sp. z o.o (for a list of all affiliates see: https://www.bbh.com/en-us/contact-us/office-locations).</i>
Nonaffiliates	Companies not related by common ownership or control. They can be financial and nonfinancial companies. <ul style="list-style-type: none"> • <i>Subject to applicable law, you should expect that BBH will share your information with nonaffiliate entities for various reasons, such as: invoicing, statement printing and transaction processing</i>
Joint marketing	A formal agreement between nonaffiliated financial companies that together market financial products or services to you. <ul style="list-style-type: none"> • <i>BBH does not engage in joint marketing with nonaffiliate entities.</i>

**MORE INFORMATION ON THE FUND IS AVAILABLE FREE UPON REQUEST,
INCLUDING THE FOLLOWING:**

Annual/Semi-Annual Report

The Fund's annual and semi-annual reports to shareholders provide the Fund's investments, performance and list of portfolio holdings. The Fund's annual report contains a letter from the Fund's Investment Adviser discussing recent market conditions, economic trends and Fund strategies that significantly affected the Fund's performance during its last fiscal year.

To reduce expenses, we mail only one copy of the Fund's prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call us at 1-800-575-1265 or if your shares are held through a financial institution please contact them directly. We will typically send you individual copies within three business days after receiving your request.

Statement of Additional Information

The SAI provides more details about the Fund and its policies and information on the Fund's non-principal investment strategies. A current SAI is on file with the SEC and is incorporated by reference (and is legally considered part of this Prospectus).

To obtain the SAI, Annual Report and Semi-Annual Report without charge:

By telephone:	Call 1-800-575-1265
By mail write to the Fund's shareholder servicing agent:	Brown Brothers Harriman & Co. 140 Broadway New York, New York 10005
By e-mail send your request to:	bbhfunds@bbh.com

On the Internet:

Certain Fund documents, including a recent statement of Fund holdings, can be viewed online or downloaded from Fund's website at: <http://www.bbhfunds.com>

To obtain other information or to make other shareholder inquiries:
