

# Annual Report

OCTOBER 31, 2021

BBH SFLECT SERIES - MID CAP FUND

## MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE October 31, 2021

This is the inaugural annual report for the BBH Select Series – Mid Cap Fund ("the Fund"), which launched on May 24, 2021. The Fund seeks to generate attractive compounded investment returns over full market cycles, while reducing the likelihood of permanent loss of capital on any single investment. To achieve this, the Fund's strategy is to invest in a select number of high-quality business franchises, as defined by the four pillars of our investment criteria – business quality, attractive financial returns, strong management, and growth potential. By adhering to our disciplined criteria and process, and investing at a discount to our estimate of intrinsic value, we believe we can establish a strong margin of safety for our investments in companies that have the potential to compound attractive investment returns over many years.\*

Given that there are few companies which meet our investment criteria, and the benefits of compounding accrue over time, we seek to hold a concentrated portfolio with low turnover. We expect the Fund's holdings to range from 20-30 companies over time. Due to the Fund's concentrated nature, the performance of the Fund will likely differ meaningfully—both positively and negatively—from relevant indexes at various points within a long-term market cycle as we maintain our independent perspective and focus on long-term compounding.

The Fund rose by 6.80% net of fees from inception on May 24, 2021 to fiscal year ended October 31, 2021. During the same period, the Russell Midcap Index rose by 7.51%.

While we prefer to focus on company fundamentals and do not invest with a top down perspective, we have observed strong sector and thematic rotational trends between growth and value, large cap and small cap, and a wide range of returns by sector. The divergence between various factors and the volatility of returns since inception is likely driven by a growing list of market concerns, as the economy struggles to sustain the strong growth it initially enjoyed emerging from the pandemic. These concerns include the Delta variant, inflation, the debt ceiling, supply chain tightness, energy shortages, a Chinese economic slowdown, and the potential acceleration of monetary tightening by the Federal Reserve. By and large, we were very pleased with our portfolio companies' ability to navigate these conditions as evidenced by strong reported earnings results. Notwithstanding the market gyrations, we ascribe higher intrinsic values to the majority of our portfolio companies today than we did at the inception of the Fund. Our investment strategy does not change based on the market backdrop. We remain always focused on the quality of our companies and anticipate that this will serve us well across a wide variety of market conditions and through full market cycles.

## MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE (continued) October 31, 2021

The Fund's largest positive contributors from inception on May 24, 2021 to fiscal year ended October 31, 2021 were Charles River Laboratories International Inc., Entegris Inc., and Brown & Brown Inc. As a leading early-stage contract research organization (CRO) providing discovery, safety assessment, and other services to pharmaceutical and biotechnology companies, Charles River has experienced a step change in its growth profile that we believe will prove to be very long duration and is driven by increased outsourcing of drug development to achieve greater productivity and increased funding for drug development overall. Entegris is a key supplier to the semiconductor industry of essential filtration products, materials, and related delivery equipment that enable the high precision fabrication of chips, and demand for their services is tied both to the volume of chips produced and the increased complexity of new chip designs that are fundamental to artificial intelligence, 5G, cloud data centers, and other advanced technologies. Brown & Brown is a leading property & casualty insurance broker with a focus on the US domestic mid-sized commercial market, a segment that has enjoyed strong growth in 2021 delivering the best results in company history for the first nine months of the year against a backdrop of strong increases in premium rates.

The Fund's largest detractors from inception on May 24, 2021 to fiscal year ended October 31, 2021 were IPG Photonics Corp., AptarGroup Inc., and Crown Holdings Inc. As the leading producer of fiber laser products used in cutting and welding applications, IPG has been directly impacted by moderating Chinese industrial activity. Aptar is a leading supplier of dispensers, closures, and active packaging solutions for the pharmaceutical, beauty, home, personal care, food, and beverage markets, and many of these end markets continue to be disrupted by the ongoing pandemic and its variants. Crown is a leading manufacturer of aluminum beverage cans and industrial transit packaging, and its share price has been impacted by market concerns regarding future potential overcapacity despite a chronically undersupplied North American market.

As of October 31, 2021, the Fund had positions in 23 companies with approximately 56% of the assets held in the ten largest holdings. The weighted average market cap of our holdings was \$15.7 billion, and our portfolio turnover from inception to fiscal year end was 3%. The Fund ended the fiscal year trading at roughly 91% of our underlying intrinsic value estimates on a weighted average basis.

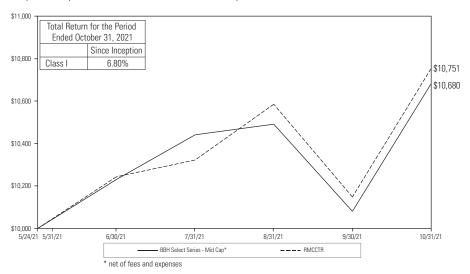

There is no assurance the objective will be achieved. Holdings are subject to change.

<sup>\*</sup> Intrinsic value is an estimate of the present value of the cash that a business can generate and distribute to shareholders over its remaining life.

MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE (continued) October 31, 2021

## Growth of \$10,000 Invested in BBH Select Series - Mid Cap Fund

The graph below illustrates the hypothetical investment of \$10,000¹ in the Class I shares of the Fund since inception (May 24, 2021) to October 31, 2021 as compared to the RMCCTR.

The annualized gross expense ratios as shown in the May 24, 2021 prospectus for Class I was 1.40%.

Performance data quoted represents past performance which is no guarantee of future results. Investment return and principal value will fluctuate, so that an investor's shares, when redeemed, may be worth more or less than their original cost. Fund performance changes over time and current performance may be lower or higher than what is stated. Fund shares redeemed within 30 days of purchase are subject to a redemption fee of 2.00%. Returns do not reflect the deductions of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. For performance current to the most recent month-end please call 1-800-575-1265.

Hypothetical performance results are calculated on a total return basis and include all portfolio income, unrealized and realized capital gains, losses and reinvestment of dividends and other earnings. No one shareholder has actually achieved these results and no representation is being made that any actual shareholder achieved, or is likely to achieve, similar results to those shown. Hypothetical performance does not represent actual trading and may not reflect the impact of material economic and market factors. Undue reliance should not be placed on hypothetical performance results in making an investment decision.

The Fund's performance assumes the reinvestment of all dividends and distributions. The Russell Mid Cap Total Return Index ("RMCCTR") has been adjusted to reflect reinvestment of dividends on securities. The RMCCTR is not adjusted to reflect sales charges, expenses or other fees that the Securities and Exchange Commission requires to be reflected in the Fund's performance. The RMCCTR is an unmanaged weighted index of 800 medium-capitalization stocks. The index is unmanaged. Investments cannot be made in an index.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM October 31, 2021

To the Trustees of the BBH Trust and Shareholders of BBH Select Series – Mid Cap Fund:

### **Opinion on the Financial Statements and Financial Highlights**

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of BBH Select Series — Mid Cap Fund (the "Fund"), one of the funds within BBH Trust, as of October 31, 2021, the related statement of operations, statement of changes in net assets and financial highlights for the period from May 24, 2021 (commencement of operations) to October 31, 2021, and the related notes. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of October 31, 2021, the results of its operations, and the changes in its net assets and the financial highlights for the period from May 24, 2021 (commencement of operations) to October 31, 2021, in conformity with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

These financial statements and financial highlights are the responsibility of the BBH Trust's management. Our responsibility is to express an opinion on the Fund's financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the BBH Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The BBH Trust is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the BBH Trust's internal control over financial reporting. Accordingly, we express no such opinion.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM (continued) October 31, 2021

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of October 31, 2021, by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

/s/ DELOITTE & TOUCHE LLP

Boston, Massachusetts December 21, 2021

We have served as the auditor of one or more Brown Brothers Harriman investment companies since 1991.

PORTFOLIO ALLOCATION October 31, 2021

### **SECTOR DIVERSIFICATION**

	U.S. \$ Value	Percent of Net Assets
Common Stock:		
Communications	\$ 503,509	3.6%
Consumer Cyclical	1,884,762	13.7
Consumer Non-cyclical	2,184,010	15.8
Financials	1,392,532	10.1
Industrials	3,680,352	26.6
Technology	3,727,557	26.9
Cash and Other Assets in Excess of Liabilities	461,131	3.3
NET ASSETS	\$13,833,853	100.0%

All data as of October 31, 2021. BBH Select Series — Mid Cap Fund's (the "Fund") sector diversification is expressed as a percentage of net assets and may vary over time.

The aggregate cost for federal income tax purposes is \$12,517,521, the aggregate gross unrealized appreciation is \$1,232,595 and the aggregate gross unrealized depreciation is \$377,394, resulting in net unrealized appreciation of \$855,201.

PORTFOLIO OF INVESTMENTS (continued) October 31, 2021

### **FAIR VALUE MEASUREMENTS**

The Fund is required to disclose information regarding the fair value measurements of the Fund's assets and liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The disclosure requirement established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the Fund's own considerations about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Authoritative guidance establishes three levels of the fair value hierarchy as follows:

- Level 1 unadjusted quoted prices in active markets for identical assets and liabilities.
- Level 2 significant other observable inputs (including quoted prices for similar assets and liabilities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of assets and liabilities).

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires judgment by the investment adviser. The investment adviser considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the investment adviser's perceived risk of that instrument.

## PORTFOLIO OF INVESTMENTS (continued) October 31, 2021

Financial assets within Level 1 are based on quoted market prices in active markets. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include investment-grade corporate bonds, U.S. Treasury notes and bonds, and certain non-U.S. sovereign obligations, listed equities and over-the-counter derivatives and foreign equity securities whose values could be impacted by events occurring before the Fund's pricing time, but after the close of the securities' primary markets and are, therefore, fair valued according to procedures adopted by the Board of Trustees. As Level 2 financial assets include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

Financial assets classified within Level 3 have significant unobservable inputs, as they trade infrequently. Level 3 financial assets include private equity and certain corporate debt securities.

Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon the actual sale of those investments.

The following table summarizes the valuation of the Fund's investments by the above fair value hierarchy levels as of October 31, 2021.

Investments, at value	Unadjusted Quoted Prices in Active Markets for Identical Investments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of October 31, 2021

ו טונוטווט נעוווטעפו ומנע	J /0

Calculated using average shares outstanding for the period.

Not annualized.

<sup>&</sup>lt;sup>3</sup> Annualized with the exception of audit fees, legal fees and registration fees.

The ratio of expenses to average net assets for the period ended October 31, 2021 reflect fees reduced as result of a contractual operating expense limitation of the share class of 0.90%. The Agreement is effective through March 1, 2022 and may only be terminated during its term with approval of the Fund's Board of Trustees. For the period from May 24, 2021 to October 31, 2021 the waived fee was \$135,159.

NOTES TO FINANCIAL STATEMENTS As of and for the period ended October 31, 2021

- 1. Organization. The Fund is a separate, non-diversified series of BBH Trust (the "Trust"), which is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was originally organized under the laws of the State of Maryland on July 16, 1990 as BBH Fund, Inc. and re-organized as a Delaware statutory trust on June 12, 2007. The Fund commenced operations on May 24, 2021 and offers two share classes, Class I and Retail Class. As of October 31, 2021, Retail Class shares are not available for purchase by investors but may be offered in the future. The investment objective of the Fund is to provide investors with long-term growth of capital. As of October 31, 2021, there were nine series of the Trust.
- 2. Significant Accounting Policies. The Fund's financial statements are prepared in accordance with Generally Accepted Accounting Principles in the United States of America ("GAAP"). The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standard Codification Topic 946 Financial Services Investment Companies. The following summarizes significant accounting policies of the Fund:
  - A. Valuation of Investments. (1) The value of investments listed on a securities exchange is based on the last sale price on that exchange prior to the time when assets are valued, or in the absence of recorded sales, at the average of readily available closing bid and asked prices on such exchange; (2) securities not traded on an exchange are valued at the average of the quoted bid and asked prices in the over-the-counter market; (3) securities or other assets for which market quotations are not readily available are valued at fair value in accordance with procedures established by and under the general supervision and responsibility of the Board of Trustees (the "Board"); (4) short-term investments, which mature in 60 days or less are valued at amortized cost if their original maturity was 60 days or less, or by amortizing their value on the 61st day prior to maturity, if their original maturity when acquired by the Fund was more than 60 days, unless the use of amortized cost is determined not to represent "fair value" by the Board.
  - B. Accounting for Investments and Income. Investment transactions are accounted for on the trade date. Realized gains and losses on investment transactions are determined based on the identified cost method. Dividend income and other distributions received from portfolio securities are recorded on the ex-dividend date. Non-cash dividends included in dividend income, if any, are recorded at the fair market value of securities received at ex-date. Distributions received on securities that represent a return of capital are recorded as a reduction of cost of investments. Distributions received on securities that represent a capital gain are recorded as a realized gain. Interest income is accrued daily. Investment income is recorded net of any foreign taxes withheld where recovery of such tax is uncertain.

NOTES TO FINANCIAL STATEMENTS (continued) As of and for the period ended October 31, 2021

- C. Fund Expenses. Most expenses of the Trust can be directly attributed to a specific fund. Expenses which cannot be directly attributed to a fund are generally apportioned among each fund in the Trust on a net assets basis or other suitable method. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are known.
- D. Federal Income Taxes. It is the Trust's policy to comply with the requirements of the Internal Revenue Code (the "Code") applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Accordingly, no federal income tax provision is required. The Fund files a tax return annually using tax accounting methods required under provisions of the Code, which may differ from GAAP, which is the basis on which these financial statements are prepared. Accordingly, the amount of net investment income and net realized gain reported in these financial statements may differ from that reported on the Fund's tax return, due to certain book-to-tax timing differences such as losses deferred due to "wash sale" transactions and utilization of capital loss carryforwards. These differences may result in temporary over-distributions for financial statement purposes and are classified as distributions in excess of accumulated net realized gains or net investment income. These distributions do not constitute a return of capital. Permanent differences are reclassified between paid-in capital and retained earnings/(accumulated deficit) within the Statement of Assets and Liabilities based upon their tax classification. As such, the character of distributions to shareholders reported in the Financial Highlights table may differ from that reported to shareholders on Form 1099-DIV.

The Fund is subject to the provisions of Accounting Standards Codification 740 Income Taxes ("ASC 740"). ASC 740 sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. The Fund did not have any unrecognized tax benefits as of October 31, 2021, nor were there any increases or decreases in unrecognized tax benefits for the year then ended. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as an income tax expense in the Statement of Operations. During the period ended October 31, 2021, the Fund did not incur any such interest or penalties. The Fund is subject to examination by U.S. federal and state tax authorities for returns filed for open tax period since May 24, 2021 (commencement of operations). The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

E. Dividends and Distributions to Shareholders. Dividends and distributions from net investment income to shareholders, if any, are paid annually and are recorded on the ex-dividend date. Distributions from net capital gains, if any, are generally declared and paid annually and are recorded on the ex-dividend date. The Fund did not declare any dividends and distributions to shareholders during the period ended October 31, 2021.

## NOTES TO FINANCIAL STATEMENTS (continued) As of and for the period ended October 31, 2021

As of October 31, 2021 the components of retained earnings/(accumulated deficit) were as follows:

Components of retained earnings/(accumulated deficit):

				0 . ,		
						Total
				Other		retained
	Undistributed	Undistributed	Accumulated	book/tax	Unrealized	earnings/
	ordinary	long-term	capital and	temporary	appreciation/	(accumulated
	income	capital gain	other losses	differences	(depreciation)	deficit)
2021:	* —	<u> </u>	\$ —	* —	\$855,201	\$855,201

The Fund did not have a net capital loss carryforward at October 31, 2021.

The Fund is permitted to carryforward capital losses for an unlimited period and they will retain their character as either short-term or long-term capital losses rather than being considered all short-term capital losses.

The differences between book-basis and tax-basis unrealized appreciation/(depreciation) would be attributable primarily to the tax deferral of losses on wash sales, if applicable.

To the extent future capital gains are offset by capital loss carryforwards, if any, such gains will not be distributed.

F. Use of Estimates. The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increase and decrease in net assets from operations during the reporting period. Actual results could differ from these estimates.

#### 3. Fees and Other Transactions with Affiliates.

A. Investment Advisory and Administrative Fees. Under a combined Investment Advisory and Administrative Services Agreement ("Agreement") with the Trust, Brown Brothers Harriman & Co. ("BBH") through a separately identifiable department ("SID" or "Investment Adviser") provides investment advisory, portfolio management and administrative services to the Fund. The Fund pays a combined fee for investment advisory and administrative services calculated daily and paid monthly at an annual rate equivalent to 0.75% per annum on the first \$3 billion of the Fund's average daily net assets and 0.70% per annum on the Fund's average daily net assets over \$3 billion. For period ended October 31, 2021, the Fund incurred \$42,044 under the Agreement.

NOTES TO FINANCIAL STATEMENTS (continued) As of and for the period ended October 31, 2021

- B. Investment Advisory and Administrative Fee Waivers. Effective May 24, 2021 (commencement of operations), the Investment Adviser contractually agreed to limit the annual fund operating expenses (excluding interest, taxes, brokerage commissions, other expenditures that are capitalized in accordance with GAAP, other extraordinary expenses not incurred in the ordinary course of the Fund's business) to 0.90%. The agreement will terminate on March 1, 2022, unless it is renewed by all parties to the agreement. The agreement may only be terminated during its term with approval of the Fund's Board of Trustees. For the period ended October 31, 2021, the Investment Adviser waived fees in the amount of \$135.159.
- C. Custody and Fund Accounting Fees. BBH acts as a custodian and fund accountant and receives custody and fund accounting fees from the Fund calculated daily and incurred monthly. BBH holds all of the Fund's cash and investments and calculates the Fund's daily net asset value. The custody fee is an asset and transaction-based fee. The fund accounting fee is an asset-based fee calculated at 0.004% of the Fund's net asset value. For the period ended October 31, 2021, the Fund incurred \$2,038 in custody and fund accounting fees. As per agreement with the Fund's custodian, the Fund receives interest income on cash balances held by the custodian at the BBH Base Rate. The BBH Base Rate is defined as BBH's effective trading rate in local money markets on each day. The total interest earned by the Fund for the period ended October 31, 2021 was \$95. This amount is included in interest income in the Statement of Operations. In the event that the Fund is overdrawn, under the custody agreement with BBH, BBH will make overnight loans to the Fund to cover overdrafts. Pursuant to their agreement, the Fund will pay the Federal Funds overnight investment rate on the day of the overdraft. The Fund did not include any such fees in the period ended October 31, 2021. This amount, if any, is included under line item "Custody and fund accounting fees" in the Statement of Operations.
- D. Board of Trustees' Fees. Each Trustee who is not an "interested person" as defined under the 1940 Act receives an annual fee as well as reimbursement for reasonable out-of-pocket expenses from the Fund. For the period ended October 31, 2021, the Fund incurred \$28,991 in independent Trustee compensation and expense reimbursements.
- E. Officers of the Trust. Officers of the Trust are also employees of BBH. Officers are paid no fees by the Trust for their services to the Trust.
- **4. Investment Transactions.** For the period ended October 31, 2021, the cost of purchases and the proceeds of sales of investment securities, other than short-term investments, were \$12,868,567 and \$363,066, respectively.

NOTES TO FINANCIAL STATEMENTS (continued) As of and for the period ended October 31, 2021

5. Shares of Beneficial Interest. The Trust is permitted to issue an unlimited number of Class I shares of beneficial interest at no par value. Transactions in Class I shares were as follows:

	For the period ended October 31, 2021*	
	Shares	Dollars
Shares sold	1,295,383	\$12,989,250
Net increase	1,295,383	\$12,989,250

<sup>\*</sup> The period represented is from May 24, 2021 (commencement of operations) to October 31, 2021.

## 6. Principal Risk Factors and Indemnifications.

A. Principal Risk Factors. Investing in the Fund may involve certain risks, as discussed in the Fund's prospectus, including but not limited to, those described below:

A shareholder may lose money by investing in the Fund (investment risk). The Fund is actively managed and the decisions by the Investment Adviser may cause the Fund to incur losses or miss profit opportunities (management risk). Price movements may occur due to factors affecting individual companies, such as the issuance of an unfavorable earnings report, or other events affecting particular industries or the equity market as a whole (equity securities risk). Mid cap companies, when compared to larger companies, may experience lower trade volume and could be subject to greater and less predictable price changes (Mid Cap Company risk). The value of securities held by the Fund may fall due to changing economic, political, regulatory or market conditions, or due to a company's or issuer's individual situation. Natural disasters, the spread of infectious illness and other public health emergencies, recession, terrorism and other unforeseeable events may lead to increased market volatility and may have adverse effects on world economies and markets generally (market risk). In the normal course of business, the Fund invests in securities and enters into transactions where risks exist due to assumption of large positions in securities of a small number of issuers (non-diversification risk). There are certain risks associated with investing in foreign securities not present in domestic investments, including, but not limited to, recovery of tax withheld by foreign jurisdictions (foreign investment risk). Investments in other investment companies are subject to market and selection risk, as well as the specific risks associated with the investment companies' portfolio securities (investment in other investment companies risk). Initial public offerings ("IPOs") are new issues of equity securities, as such they have no trading history and there may be limited information about the companies for a very limited period. Additionally, the prices of securities sold in IPOs may be highly volatile (IPO risk). Preferred securities are subject to issuer-specific and market risks. Generally, issuers only pay dividends after the company makes required payments to holders of bonds and other debt, as such the value of preferred securities may react more strongly to market conditions than bonds and other debts (Preferred Securities risk). The Fund's shareholders may be adversely impacted by asset

NOTES TO FINANCIAL STATEMENTS (continued) As of and for the period ended October 31, 2021

allocation decisions made by an investment adviser whose discretionary clients make up a large percentage of the Fund's shareholders (shareholder concentration risk). The extent of the Fund's exposure to these risks in respect to these financial assets is included in their value as recorded in the Fund's Statement of Assets and Liabilities.

In 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. The situation is dynamic with various cities and countries around the world responding in different ways to address the outbreak. The rapid development and fluidity of this situation precludes any prediction as its ultimate impact, which may have a continued adverse impact on economic and market conditions and trigger a period of global economic slowdown. Management is monitoring developments relating to COVID-19 and is coordinating its operational response based on existing business continuity plans and on guidance from global health organizations, relevant governments, and general pandemic response best practices.

Please refer to the Fund's prospectus for a complete description of the principal risks of investing in the Fund.

- B. Indemnifications. Under the Trust's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund, and shareholders are indemnified against personal liability for the obligations of the Trust. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss from such claims is considered remote.
- 7. Subsequent Events. BBH&Co. ("BBH"), the custodian and fund accountant for the Fund, has entered into an agreement with State Street Corporation ("State Street") under which State Street will acquire BBH's Investor Services business; which includes those services provided to the Fund. The transaction is expected to be completed in the first quarter of 2022, subject to customary closing conditions and regulatory approvals. Investment advisory, portfolio management and administrative services provided to BBH Trust by BBH through its SID are not impacted by the agreement with State Street.

Management has evaluated events and transactions that have occurred since October 31, 2021 through the date the financial statements were issued and determined that there were no other subsequent events that would require recognition or additional disclosure in the financial statements.

DISCLOSURE OF FUND EXPENSES October 31, 2021 (unaudited)

#### **FXAMPIF**

As a shareholder of the Fund, you may incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, reinvested distributions, or other distributions; redemption fees; and exchange fees; and (2) ongoing costs, including management fees; distribution 12b-1 fees; and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (May 24, 2021 to October 31, 2021).

#### **ACTUAL EXPENSES**

The first line of the table below provides information about actual account values and actual expenses. You may use information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period" to estimate the expenses you paid on your account during the period.

#### HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid during the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% Hypothetical Example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value May 24, 2021	Ending Account Value October 31, 2021	Expenses Paid During Period May 24, 2021 to October 31, 2021
Actual	\$1,000	\$1,068	\$4.08
Hypothetical <sup>2</sup>	\$1,000	\$1,018	\$3.98

Expenses are equal to the Fund's annualized expense ratio of 0.90%, multiplied by the average account value over the period, multiplied by 160/365.

Assumes a return of 5% before expenses. For the purposes of the calculation, the applicable annualized expense ratio for each class of shares is subtracted from the assumed return before expenses.

DISCLOSURE OF ADVISOR SELECTION October 31, 2021 (unaudited)

### **Investment Advisory and Administrative Services Agreement Approval**

The 1940 Act requires that a fund's investment advisory agreements must be approved both by a fund's board of trustees and by a majority of the trustees who are not parties to the investment advisory agreements or "interested persons" of any party ("Independent Trustees"), cast in person at a meeting called for the purpose of voting on such approval. However, due to the ongoing COVID-19 pandemic the U.S. Securities and Exchange Commission provided exemptive relief from the in-person provisions of Section 15 of the 1940 Act related to the approval certain agreements on March 25, 2020 ("Exemptive Relief").

The Board, a majority of which is comprised of Independent Trustees, held a meeting on May 10, 2021, in reliance on the Exemptive Order, to consider the combined Amended and Restated Investment Advisory and Administrative Services Agreement (the "Agreement") between the Trust and the Investment Advisor with respect to the Fund. The Board approved the Agreement at that time. In approving the Agreement, the Board determined that the terms of the Agreement were fair and reasonable and in the best interest of the Fund and its shareholders.

Throughout the year, the Board requested, received and assessed a variety of materials provided by the Investment Adviser and BBH, including, among other things, information about the nature, extent and quality of the services provided and to be provided to the Trust and the Fund by the Investment Adviser and BBH, including investment management and administrative services, the oversight of Fund service providers, marketing, risk oversight, compliance, and the ability to meet applicable legal and regulatory requirements. The Board received and reviewed a comparative fee and expense information for the Fund as compared to similar funds at the meeting held on May 10, 2021. The Board reviewed this report with fund management, the Adviser and counsel to the Trust ("Fund Counsel"). The Board received from, and discussed with, Fund Counsel a memorandum regarding the responsibilities of trustees for the approval of investment advisory agreements under the 1940 Act, as well as the guidance provided in <u>Gartenburg v. Merrill Lynch Asset</u> Management, Inc., which was affirmed in Jones v. Harris Associates, L.P.

In approving the Agreement, the Board considered: (a) the nature, extent and quality of services provided by the Investment Adviser; (b) the advisory fee and the cost of the services to be realized by the Investment Adviser from its relationship with the Fund; (c) the Fund's costs to investors compared to the costs of comparative funds; (d) the sharing of potential economies of scale; and (e) other factors deemed relevant by the Board. The following is a summary of certain factors the Board considered in making its determination to approve the Agreement. No single factor reviewed by the Board was identified as the principal factor in determining whether to approve the Agreement, and individual Trustees may have given different weight to various factors. The Board reviewed these factors with Fund Counsel. The Board concluded that the fees to be paid by the Fund to the Investment Adviser were reasonable.

DISCLOSURE OF ADVISOR SELECTION (continued) October 31, 2021 (unaudited)

### **Nature, Extent and Quality of Services**

The Board noted that, under the Agreement and with respect to the Fund, the Investment Adviser, subject to the supervision of the Board, is responsible for providing a continuous investment program and making purchases and sales of portfolio securities consistent with the Fund's investment objective and policies. The Board further noted that, as a combined investment advisory and administration agreement, the Agreement also contemplates the provision of administrative services by the Investment Adviser to the Fund within the same fee structure. The Board received and considered information during the Meeting, and over the course of the previous year, regarding the nature, extent and quality of services provided to the Trust and those that would be provided to the Fund by the Investment Adviser including; portfolio management, the supervision of operations and compliance, preparation of regulatory filings, disclosures to Fund shareholders, general oversight of service providers, organizing Board meetings and preparing the materials for such Board meetings, assistance to the Board (including the Independent Trustees in their capacity as Trustees), legal and Chief Compliance Officer services for the Trust, and other services necessary for the operation of the Fund. The Board considered the resources of the Investment Adviser and BBH, as a whole, dedicated to the Fund noting that, pursuant to separate agreements, BBH also provides custody and fund accounting services to the Fund. The Board considered the depth and range of services provided pursuant to the Agreement, noting that the Investment Adviser also coordinates the provision of services to the Fund by affiliated and nonaffiliated service providers.

The Board considered the scope and quality of services provided by the Investment Adviser under the Agreement. The Board reviewed the qualifications of the key investment personnel primarily responsible for the day-to-day portfolio management of the Fund. The Board also considered the policies and practices followed by BBH and the Investment Adviser. The Board concluded that, overall, it was satisfied with the nature, extent and quality of the investment advisory and administrative services provided, and expected to be provided, to the Fund pursuant to the Agreement.

#### Costs of Services Provided

The Board considered the fee rates paid by the Fund to the Investment Adviser and BBH in light of the nature, extent and quality of the services provided to the Fund. The Board also considered and reviewed the fee waiver arrangement in place for the Fund and considered the actual fee rates after taking into account the fee waiver. The Board noted that they had received and considered information comparing the Fund's combined investment advisory and administration fee and the Fund's net operating expenses with those of other comparable mutual funds. The Board recognized that it is difficult to make comparisons of the fee rate, or of combined advisory and administration fees, because there are variations in the services that are included in the fees paid by other funds. The Board concluded that the advisory and administration fee appeared to be both reasonable in light of the services rendered and the result of arm's length negotiations.

DISCLOSURE OF ADVISOR SELECTION (continued) October 31, 2021 (unaudited)

The Board also considered the effect of fall-out benefits to the Investment Adviser and BBH such as the increased visibility of BBH's investment management business due to the distribution of the Trust's funds. The Board considered other benefits received by BBH and the Investment Adviser as a result of their relationships with the Fund. These other benefits include fees received for being the Fund's custodian and fund accounting agent. In light of the costs of providing services pursuant to the Agreement as well as the Investment Adviser and BBH's commitment to the Fund, the ancillary benefits that the Investment Adviser and BBH received were considered reasonable.

#### **Economies of Scale**

The Board also considered the existence of any economies of scale and whether those economies are passed along to the Fund's shareholders through a graduated investment advisory fee schedule or other means, including any fee waivers by the Investment Adviser and BBH. The Board considered the fee schedule for the Fund, including applicable breakpoints. The Board concluded that the fees to be paid by the Fund to the Investment Adviser were reasonable based on the comparative expense information and the cost of the services provided by the Investment Adviser.

CONFLICTS OF INTEREST October 31, 2021 (unaudited)

### **Description of Potential Material Conflicts of Interest - Investment Adviser**

BBH, including the Investment Adviser, provides discretionary and non-discretionary investment management services and products to corporations, institutions and individual investors throughout the world. As a result, in the ordinary course of its businesses, BBH, including the Investment Adviser, may engage in activities in which its interests or the interests of its clients may conflict with or be adverse to the interests of the Funds. In addition, certain of such clients (including the Funds) utilize the services of BBH for which they will pay to BBH customary fees and expenses that will not be shared with the Funds.

The Investment Adviser and the Sub-Adviser have adopted and implemented policies and procedures that seek to manage conflicts of interest. Pursuant to such policies and procedures, the Investment Adviser and the Sub-Adviser monitor a variety of areas, including compliance with fund investment guidelines, the investment in only those securities that have been approved for purchase, and compliance with their respective Code of Ethics.

The Trust also manages these conflicts of interest. For example, the Trust has designated a Chief Compliance Officer ("CCO") and has adopted and implemented policies and procedures designed to manage the conflicts identified below and other conflicts that may arise in the course of the Funds' operations in such a way as to safeguard the Funds from being negatively affected as a result of any such potential conflicts. From time to time, the Trustees receive reports from the Investment Adviser, the Sub-Adviser and the Trust's CCO on areas of potential conflict.

Investors should carefully review the following, which describes potential and actual conflicts of interest that BBH, the Investment Adviser and Sub-Adviser can face in the operation of their respective investment management services. This section is not, and is not intended to be, a complete enumeration or explanation of all of the potential conflicts of interest that may arise. The Investment Adviser, the Sub-Adviser and the Funds have adopted policies and procedures reasonably designed to appropriately prevent, limit or mitigate the conflicts of interest described below. Additional information about potential conflicts of interest regarding the Investment Adviser is set forth in the Investment Adviser's Form ADV. A copy of Part 1 and Part 2A of the Investment Adviser's Form ADV is available on the SEC's website (www.adviserinfo.sec.gov). In addition, many of the activities that create these conflicts of interest are limited and/or prohibited by law, unless an exception is available.

Other Clients and Allocation of Investment Opportunities. BBH, the Investment Adviser, and the Sub-Adviser manage funds and accounts of clients other than the Funds ("Other Clients"). In general, BBH, the Investment Adviser, and the Sub-Adviser face conflicts of interest when they render investment advisory services to different clients and, from time to time, provide dissimilar investment advice to different clients. Investment decisions will not necessarily be made in parallel among the Funds and Other Clients. Investments made by the Funds do not, and are not intended to, replicate the investments, or the investment methods and strategies, of Other Clients. Accordingly, such Other Clients' accounts may produce results that are materially different from those experienced by the Funds. Certain other conflicts of interest may arise in connection with a portfolio manager's management of the Funds' investments, on the one hand, and the investments of other funds or accounts for which the portfolio manager is responsible, on the other. For example, it is possible that the various funds or accounts managed by the Investment Adviser or Sub-Adviser

CONFLICTS OF INTEREST (continued) October 31, 2021 (unaudited)

could have different investment strategies that, at times, might conflict with one another to the possible detriment of the Funds. From time to time, the Investment Adviser and Sub-Adviser, sponsor and with other investment pools and accounts which engage in the same or similar businesses as the Funds using the same or similar investment strategies. To the extent that the same investment opportunities might be desirable for more than one account or fund, possible conflicts could arise in determining how to allocate them because the Investment Adviser or Sub-Adviser may have an incentive to allocate investment opportunities to certain accounts or funds. However, BBH and the Investment Adviser have implemented policies and procedures designed to ensure that information relevant to investment decisions is disseminated promptly within its portfolio management teams and investment opportunities are allocated equitably among different clients. The policies and procedures require, among other things, objective allocation for limited investment opportunities, and documentation and review of justifications for any decisions to make investments only for select accounts or in a manner disproportionate to the size of the account. Nevertheless, access to investment opportunities may be allocated differently among accounts due to the particular characteristics of an account, such as size of the account, cash position, tax status, risk tolerance and investment restrictions or for other reasons.

Actual or potential conflicts of interest may also arise when a portfolio manager has management responsibilities to multiple accounts or funds, resulting in unequal commitment of time and attention to the portfolio management of the funds or accounts.

**Affiliated Service Providers.** Other potential conflicts might include conflicts between the Funds and its affiliated and unaffiliated service providers (e.g. conflicting duties of loyalty). In addition to providing investment management services through the SID, BBH provides administrative, custody, shareholder servicing and fund accounting services to the Funds. BBH may have conflicting duties of loyalty while servicing the Funds and/or opportunities to further its own interest to the detriment of the Funds. For example, in negotiating fee arrangements with affiliated service providers, BBH may have an incentive to agree to higher fees than it would in the case of unaffiliated providers. BBH acting in its capacity as the Funds' administrator is the primary valuation agent of the Funds. BBH values securities and assets in the Funds according to the Funds' valuation policies. Because the Investment Adviser's advisory and administrative fees are calculated by reference to the Funds' net assets, BBH and its affiliates may have an incentive to seek to overvalue certain assets.

**Aggregation.** Potential conflicts of interest also arise with the aggregation of trade orders. Purchases and sales of securities for the Funds may be aggregated with orders for other client accounts managed by the Sub-Adviser. The Sub-Adviser, however, is not required to aggregate orders if portfolio management decisions for different accounts are made separately, or if it is determined that aggregating is not practicable, or in cases involving client direction. Prevailing trading activity frequently may make impossible the receipt of the same price or execution on the entire volume of securities purchased or sold. When this occurs, the various prices may be averaged, and the Funds will be charged or credited with the average price. Thus, the effect of the aggregation may operate on some occasions to the disadvantage of the Funds. In addition, under certain circumstances, the Funds will not be charged the same commission or commission equivalent rates in connection with an aggregated order.

CONFLICTS OF INTEREST (continued) October 31, 2021 (unaudited)

**Cross Trades.** Under certain circumstances, the Investment Adviser, on behalf of the Funds, may seek to buy from or sell securities to another fund or account advised by BBH, the Investment Adviser. Subject to applicable law and regulation, BBH, the Investment Adviser may (but is not required to) effect purchases and sales between BBH, the Investment Adviser clients ("cross trades"), including the Funds, if BBH, the Investment Adviser or the Sub-Adviser believe such transactions are appropriate based on each party's investment objectives and guidelines. There may be potential conflicts of interest or regulatory issues relating to these transactions which could limit the Investment Adviser's decision to engage in these transactions for the Funds. BBH, the Investment Adviser and/or the Sub-Adviser may have a potentially conflicting division of loyalties and responsibilities to the parties in such transactions.

**Soft Dollars.** The Investment Adviser may direct brokerage transactions and/or payment of a portion of client commissions ("soft dollars") to specific brokers or dealers or other providers to pay for research or other appropriate services which provide, in the Investment Adviser's view, appropriate assistance in the investment decision-making process (including with respect to futures, fixed price offerings and over-the-counter transactions). The use of a broker that provides research and securities transaction services may result in a higher commission than that offered by a broker who does not provide such services. The Investment Adviser will determine in good faith whether the amount of commission is reasonable in relation to the value of research and services provided and whether the services provide lawful and appropriate assistance in its investment decision-making responsibilities.

Research or other services obtained in this manner may be used in servicing any or all of the Funds and other accounts managed by the Investment Adviser, including in connection with accounts that do not pay commissions to the broker related to the research or other service arrangements. Such products and services may disproportionately benefit other client accounts relative to the Funds based on the amount of brokerage commissions paid by the Funds and such other accounts. To the extent that the Sub-Adviser uses soft dollars, it will not have to pay for those products and services itself.

BBH may receive research that is bundled with the trade execution, clearing, and/or settlement services provided by a particular broker-dealer. To the extent that the Sub-Adviser receives research on this basis, many of the same conflicts related to traditional soft dollars may exist. For example, the research effectively will be paid by client commissions that also will be used to pay for the execution, clearing, and settlement services provided by the broker-dealer and will not be paid by the Sub-Adviser.

Arrangements regarding compensation and delegation of responsibility may create conflicts relating to selection of brokers or dealers to execute Fund portfolio trades and/or specific uses of commissions from Fund portfolio trades, administration of investment advice and valuation of securities.

**Investments in BBH Funds.** From time to time BBH may invest a portion of the assets of its discretionary investment advisory clients in the Funds. That investment by BBH on behalf of its discretionary investment advisory clients in the Funds may be significant at times.

CONFLICTS OF INTEREST (continued) October 31, 2021 (unaudited)

Increasing a Fund's assets may enhance investment flexibility and diversification and may contribute to economies of scale that tend to reduce the Funds' expense ratio. In selecting the Funds for its discretionary investment advisory clients, BBH may limit its selection to funds managed by BBH or the Investment Adviser. BBH may not consider or canvass the universe of unaffiliated investment companies available, even though there may be unaffiliated investment companies that may be more appropriate or that have superior performance. BBH, the Investment Adviser and their affiliates providing services to the Funds benefit from additional fees when the Funds is included as an investment by a discretionary investment advisory client.

BBH reserves the right to redeem at any time some or all of the shares of the Funds acquired for its discretionary investment advisory clients' accounts. A large redemption of shares of the Funds by BBH on behalf of its discretionary investment advisory clients could significantly reduce the asset size of the Funds, which might have an adverse effect on the Funds' investment flexibility, portfolio diversification and expense ratio.

**Valuation.** When market quotations are not readily available, or are believed by BBH to be unreliable, the Funds' investments will be valued at fair value by BBH pursuant to procedures adopted by the Funds' Board of Trustees. When determining an asset's "fair value", BBH seeks to determine the price that a Fund might reasonably expect to receive from the current sale of that asset in an arm's-length transaction. The price generally may not be determined based on what the Funds might reasonably expect to receive for selling an asset at a later time or if it holds the asset to maturity. While fair value determinations will be based upon all available factors that BBH deems relevant at the time of the determination and may be based on analytical values determined by BBH using proprietary or third-party valuation models, fair value represents only a good faith approximation of the value of a security. The fair value of one or more securities may not, in retrospect, be the price at which those assets could have been sold during the period in which the particular fair values were used in determining the Funds' net asset value. As a result, the Funds' sale or redemption of its shares at net asset value, at a time when a holding or holdings are valued by BBH (pursuant to Board-adopted procedures) at fair value, may have the effect of diluting or increasing the economic interest of existing shareholders.

**Referral Arrangements.** BBH may enter into advisory and/or referral arrangements with third parties. Such arrangements may include compensation paid by BBH to the third party. BBH may pay a solicitation fee for referrals and/or advisory or incentive fees. BBH may benefit from increased amounts of assets under management.

CONFLICTS OF INTEREST (continued) October 31, 2021 (unaudited)

**Personal Trading.** BBH, including the Investment Adviser, and any of their respective partners, principals, directors, officers, employees, affiliates or agents, face conflicts of interest when transacting in securities for their own accounts because they could benefit by trading in the same securities as the Funds, which could have an adverse effect on the Funds. However, the Investment Adviser has implemented policies and procedures concerning personal trading by BBH Partners and employees. The policy and procedures are intended to prevent BBH Partners and employees from trading in the same securities as the Funds. However, BBH, including the Investment Adviser, has implemented policies and procedures concerning personal trading by BBH Partners and employees. The policies and procedures are intended to prevent BBH Partners and employees with access to Fund material non-public information from trading in the same securities as the Funds.

**Gifts and Entertainment.** From time to time, employees of BBH, including the Investment Adviser, and any of their respective partners, principals, directors, officers, employees, affiliates or agents, may receive gifts and/or entertainment from clients, intermediaries, or service providers to the Funds or BBH, including the Investment Adviser, which could have the appearance of affecting or may potentially affect the judgment of the employees, or the manner in which they conduct business. The Investment Adviser has implemented policies and procedures concerning gifts and entertainment to mitigate any impact on the judgment of BBH Partners and employees. BBH, including the Investment Adviser, has implemented policies and procedures concerning gifts and entertainment to mitigate any impact on the judgment of BBH Partners and employees.

## ADDITIONAL FEDERAL TAX INFORMATION October 31, 2021 (unaudited)

In January 2022, shareholders will receive Form 1099-DIV, which will include their share of qualified dividends distributed during the calendar year 2021. Shareholders are advised to check with their tax advisers for information on the treatment of these amounts on their individual income tax returns.

<sup>#</sup> All officers of the Trust hold office for one year and until their respective successors are chosen and qualified (subject to the ability of the Trustees to remove any officer in accordance with the Trust's By-laws).

Mr. Wagner previously served on the Board of Trustees of the Predecessor Trust.

<sup>+</sup> Ms. Livingston and Mr. Gehret are "interested persons" of the Trust as defined in the 1940 Act because of their positions as Partner and Limited Partner of BBH&Co., respectively.

<sup>^</sup> The Fund Complex consists of the Trust, which has nine series, and each is counted as one "Portfolio" for purposes of this table.

## OPERATION AND EFFECTIVENESS OF THE FUND'S LIQUIDITY RISK MANAGEMENT PROGRAM October 31, 2021 (unaudited)

The Securities and Exchange Commission adopted Rule 22e-4 under the Investment Company Act of 1940, as amended (the "Liquidity Rule") to promote effective liquidity risk management throughout the open-end investment company industry in order to reduce the risk that funds will be unable to meet their redemption obligations and mitigate dilution of the interests of fund shareholders.

The Board of Trustees (the "Board") of BBH Trust met on March 9, 2021 to review the liquidity risk management program (the "Program") for the funds of BBH Trust (the "Funds") pursuant to the Liquidity Rule. The Board has appointed three members of the Brown Brothers Harriman & Co. Mutual Fund Advisory Department, the Investment Adviser to the Funds, as the Program Administrator for each Fund's Program. The Program Administrator provided the Board with a report (the "Report") that addressed the operations of the Program and assessed its adequacy and effectiveness of the Program. The Report covered the period from February 1, 2020 through January 31, 2021 (the "Reporting Period").

The Report noted that the Program complied with the key factors for consideration under the Liquidity Rule for assessing, managing and periodically reviewing a Fund's liquidity risk, including the following points.

Liquidity classification. The Report described the Program's liquidity classification methodology for categorizing the Funds' investments into one of four liquidity buckets.

Highly Liquid Investment Minimum. The Report noted that one aspect of the Liquidity Rule is a requirement that funds that are expected to have less than 50% of assets classified as other than "highly liquid" should establish a minimum percentage of highly liquid assets that the fund is expected to hold on an on-going basis. The Program Administrator monitors the percentages of assets in each category on an ongoing basis and, given that no Fund has approached the 50% threshold, has made the determination that it is not necessary to assign a Highly Liquid Investment Minimum as provided for in the Liquidity Rule to any of the Funds.

The Fund's investment strategy and liquidity of portfolio investments during normal and reasonably foreseeable stressed market conditions. During the Reporting Period, the Program Administrator reviewed whether each Fund's investment strategy is appropriate for an open-end fund structure with a focus on Funds with more significant and consistent holdings of less liquid and illiquid assets and factored a Fund's concentration in an issuer into the liquidity classification methodology by taking issuer position sizes into account.

Short-term and long-term cash flow projections during normal and reasonably foreseeable stressed market conditions. During the Reporting Period, the Program Administrator reviewed historical redemption activity and used this information as a component to establish each Fund's reasonably anticipated trading size. The Program Administrator also took into consideration other factors such as shareholder ownership concentration, applicable distribution channels and the degree of certainty associated with a Fund's short-term and long-term cash flow projections.

Holdings of cash and cash equivalents. The Program Administrator considered the degree to which each Fund held cash and cash equivalents as a component of each Fund's ability to meet redemption requests.

OPERATION AND EFFECTIVENESS OF THE FUND'S LIQUIDITY RISK MANAGEMENT PROGRAM (continued)

October 31, 2021 (unaudited)

There were no material changes to the Program during the Reporting Period. The Program Administrator has informed the Board that it believes that the Fund's Program is adequately designed, has been implemented as intended, and has operated effectively since its implementation. No material exceptions have been noted since the implementation of the Program, and there were no liquidity events that impacted the Fund or its ability to meet redemption requests on a timely basis during the Reporting Period.
