I. BBH PARTNER FUND—SMALL CAP EQUITY SUMMARY

INVESTMENT OBJECTIVE

The investment objective of the BBH Partner Fund – Small Cap Equity (the “Fund”) is to provide investors with long-term growth of capital.

FEES AND EXPENSES OF THE FUND

The table below describes the fees and expenses that you may pay if you buy, hold, and sell the Fund’s shares. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and expense example below.**

Shareholder Fees

(Fees paid directly from your investment)

	<u>Class I</u>
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (Load) (as a percentage of the subscription amount)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions (as a percentage of the amount being reinvested)	None
Redemption Fee on shares held less than 30 days after purchase (as a percentage of amount redeemed, if applicable)	2.00%
Exchange Fee	None

Annual Fund Operating Expenses

(Expenses that you pay each year as a percentage of the value of your investment)

	<u>Class I</u>
Management Fees	0.85%
Shareholder Service Fee	None
Distribution (12b-1) Fees	None
Other Expenses	0.07%
Total Annual Fund Operating Expenses	<u>0.92%</u>

EXAMPLE

This example is intended to help you compare the cost of investing in the Fund's shares to the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund's shares for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the operating expenses of the Fund's shares remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class I	\$94	\$294	\$510	\$1,132

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example above, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 27% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGIES

Under normal circumstances, the Fund invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in small cap equity securities. Such securities will be publicly traded and issued by domestic issuers directly. The Fund primarily seeks to purchase common stock. The Investment Adviser considers small cap securities to be securities that at the time of purchase have market capitalizations between (or equal) to the largest and smallest companies within the Russell 2000 Index and/or are constituents of the Russell 2000 Index, as of the date of the latest reconstitution. As of January 31, 2024, the market capitalization range of companies included in the Russell 2000 Index was \$12.92 million to \$29.58 billion. The Fund will concentrate at least 25% of its net assets in the Software & Services Industry Group within the Information Technology Sector.

Brown Brothers Harriman & Co. (“BBH&Co.”), through a separately identifiable department (“Investment Adviser”), employs a “manager of managers” investment approach, whereby it allocates the Fund’s assets to the Fund’s Sub-adviser, Bares Capital Management, Inc. (“Sub-adviser”). Subject to the general supervision by the Fund’s Board of Trustees (“Board”), the Investment Adviser oversees the Sub-adviser and evaluates its performance results. The Investment Adviser reviews portfolio performance, characteristics and changes in key personnel of the Sub-adviser. The Sub-adviser is primarily responsible for the day-to-day management of the Fund’s portfolio, including purchases and sales of individual securities. However, the Investment Adviser may, when deemed appropriate, manage all or a portion of the Fund’s assets according to the Fund’s principal investment strategies.

The Sub-adviser’s focuses on identifying companies that it believes are qualitatively excellent through “bottoms-up” research, primarily involving a review of public documents; field work, including company site visits, industry trade shows, user conferences and product demonstrations; discussions with suppliers, customers and competitors; and other primary and secondary

due diligence. The Fund will typically invest in companies with durable competitive advantages; the potential for high returns on invested capital; skilled, shareholder-friendly management teams; and large growth opportunities. After qualitative assessment is complete, the Sub-adviser values the companies that meet its criteria using a discounted cash flow model or other relevant methods and invests in a limited number of companies that present the most compelling mix of qualitative characteristics (e.g., competitive position) and quantitative metrics (e.g., price in relation to intrinsic value). As part of the Fund's investment process, the Sub-adviser considers environmental, social and governance ("ESG") factors for certain investments in the portfolio. ESG factors include, the environmental and social impact of the issuer as well as the issuer's instituted governance programs. Investments may be sold if they appreciate to levels at or near the higher end of the Sub-adviser's estimated ranges of intrinsic value. However, the Fund may retain these investments if they continue to meet the Fund's investment objective and strategy.

The Fund operates as a "non-diversified company" under the Investment Company Act of 1940 (the "1940 Act"), which means that the Fund may invest a significant portion of its assets in the securities of a limited number of issuers. The Fund invests in at least 20 companies, each of which must meet the Sub-adviser's prescriptive fundamental criteria.

PRINCIPAL RISKS OF THE FUND

The principal risks of investing in the Fund and the circumstances reasonably likely to adversely affect an investment are listed and described below. The share price of the Fund changes daily, based on market conditions and other factors. A shareholder may lose money by investing in the Fund. There can be no assurance that the Fund will achieve its investment objective.

Small Cap Company Risk:

Small cap companies, when compared to larger companies, may experience lower trade volume and could be subject to greater and less predictable price changes. Small cap companies may also have limited management experience or depth, limited ability to generate or borrow capital needed for growth, limited products or services, or operate in less established markets. Therefore, small cap securities may be subject to changing economic, market, and industry conditions and experience more volatility and less liquidity over short periods.

Investment Risk:

Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time.

Market Risk:

The price of a security may fall due to changing economic, political, regulatory or market conditions, or due to a company's or issuer's individual situation. Natural disasters, the spread of infectious illness and other public health emergencies, recession, terrorism and other unforeseeable events may lead to increased market volatility and may have adverse effects on world economies and markets generally.

Equity Securities Risk:

Equity securities risk is the risk that prices of equity securities rise and fall daily. Price movements may occur due to factors affecting individual companies, such as the issuance of an unfavorable earnings report, or other events affecting particular industries or the equity market as a whole.

Non-Diversification Risk:

Because a non-diversified fund under the federal securities laws may invest in a relatively small number of issuers compared to a diversified fund, changes in the financial condition of individual issuers, as well as political, regulatory or economic occurrences affecting such issuers may cause greater fluctuation in the value of a non-diversified fund's shares. However, the Fund intends to satisfy the asset diversification requirements for qualification as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code").

Software & Services Industry Group Concentration Risk:

When a fund focuses its investments in a particular industry, group of industries, or sector, financial, economic, business, and other developments affecting issuers in those industries or sector will have a greater effect on the fund than if it had not done so. Market or economic factors impacting companies in the information technology sector could have a major effect on the value of the Fund's investments. Stocks of such companies, especially those of smaller, less-seasoned companies, tend to be more volatile than the overall market. Additionally, companies in the information technology sector may face unpredictable changes in growth rates and competition for the services of qualified personnel.

Computer software/services companies can be significantly affected by competitive pressures, aggressive pricing, technological developments, changing domestic demand, the ability to attract and retain skilled employees and availability and price of components. The market for products produced by computer software/services companies is characterized by rapidly changing technology, evolving industry standards and frequent new product introductions. The success of computer software/services companies depends in substantial part on the timely and successful introduction of new products and the ability to service such products. An unexpected change in one or more of the technologies affecting an issuer's products or in the market for products based on a particular technology could have a material adverse effect on a participant's operating results. Some computer software/services companies rely on a combination of patents, copyrights, trademarks and trade secret laws to establish and protect their proprietary rights in their products and technologies. There can be no assurance that the steps taken by computer software/services companies to protect their proprietary rights will be adequate to prevent misappropriation of their technology or that competitors will not independently develop technologies that are substantially equivalent or superior to such companies' technology.

Large Shareholder Risk:

Asset allocation decisions, particularly large redemptions, made by an investor or an investment adviser whose discretionary clients make up a large percentage of the Fund's shareholders, may adversely impact remaining Fund shareholders.

Management Risk:

The Fund is actively managed, and its success depends upon the investment skills and analytical abilities of the Sub-adviser to develop and effectively implement strategies that achieve the Fund's investment objective. Subjective decisions made by the Sub-adviser may cause the Fund to incur losses or to miss profit opportunities on which it may otherwise have capitalized.

FUND PERFORMANCE

The following bar chart and table give an indication of the risks involved with an investment in the Fund. The bar chart shows changes in the performance of the Fund's Class I Shares from year to year. The table shows how the average annual returns of the Fund's Class I Shares for the periods indicated compared to a broad-based market index. One cannot invest directly in an index.

When you consider this information, please remember that the Fund's performance (before and after taxes) in past years is not necessarily an indication of how the Fund will perform in the future. Updated information on the Fund's performance can be obtained by visiting www.bbhffunds.com or can be obtained by phone at 1-800-575-1265.

Total Return for Class I Shares (% Per Calendar Year)

Highest Performing Quarter: 13.90% in 1st quarter of 2023

Lowest Performing Quarter: (17.58)% in 2nd quarter of 2022

Average Annual Total Returns (through December 31, 2023)

The Fund's performance figures assume that all distributions were reinvested in the Fund. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect

the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown for only one class and after-tax returns for other classes will vary.

	1 Year	Since Inception (July 8, 2021)
Class I Shares		
Return Before Taxes	21.17%	(9.90)%
Return After Taxes on Distributions	21.17%	(9.99)%
Return After Taxes on Distributions and Sale of Fund Shares	12.53%	(7.43)%
Russell 2000 Total Return Index (reflects no deduction for fees, expenses or taxes)	16.93%	(2.43)%

INVESTMENT ADVISER

BBH&Co., through a separately identifiable department, serves as the Fund's the investment adviser. Bares Capital Management, Inc. currently serves as the sub-adviser to the Fund. The following individuals are responsible for the day-to-day management of the Fund:

Portfolio Managers

Sub-Adviser	Portfolio Management Team Members	Fund Manager Since
Bares Capital Management, Inc.	Brian Bares	2021
12600 Hill Country Blvd., Suite R-230	Jay Creel	2021
Austin, TX 78738	Benjamin Huang	2021

PURCHASE AND SALE OF FUND SHARES

Shares of the Fund may be purchased or sold (redeemed) on any business day (normally any day when the New York Stock Exchange ("NYSE") is open). Shareholders may redeem shares held directly in the name of a shareholder on the books of the Fund by submitting a redemption request to the Fund's

transfer agent, ALPS Fund Services, Inc. (“Transfer Agent”). If shares are held by a bank, broker or other financial intermediary on behalf of such shareholder (“Financial Intermediary”) with which the Fund or BBH&Co. has contracted, then shareholders must redeem shares through such Financial Intermediary.

Investment Minimums

Minimum initial and subsequent purchase amounts may vary.

	<u>Class I</u>
Initial Purchases	\$10,000
Subsequent Purchases	\$ 1,000

TAX INFORMATION

The Fund’s distributions are generally taxable to you as ordinary income, qualified dividend income, capital gains, or a combination of the three.

PAYMENTS TO FINANCIAL INTERMEDIARIES

If you purchase shares of the Fund through a Financial Intermediary, BBH&Co. may pay the Financial Intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the Financial Intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your Financial Intermediary’s website for more information.

II. INVESTMENT OBJECTIVE, PRINCIPAL INVESTMENT STRATEGIES AND PRINCIPAL RISKS

INVESTMENT OBJECTIVE

The investment objective of the Fund is to provide investors with long-term growth of capital. The investment objective may be changed by the Board without a vote of shareholders. In the event that the investment objective is changed, the Fund generally will provide shareholders with 60 days prior notice. There can be no assurance that the Fund will achieve its investment objective.

PRINCIPAL INVESTMENT STRATEGIES

Under normal circumstances, the Fund invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in publicly traded small cap equity securities. Such securities will be publicly traded and issued by domestic issuers directly. The Fund primarily seeks to purchase common stock. The Fund considers small cap securities to be securities that at the time of purchase have market capitalizations between (or equal) to the largest and smallest companies within the Russell 2000 Index and/or are constituents of the Russell 2000 Index as of the date of the latest reconstitution. As of January 31, 2024, the market capitalization range of companies included in the Russell 2000 Index was \$12.92 million to \$29.58 billion.

The Fund will concentrate at least 25% of its net assets in the Software & Services Industry Group within the Information Technology Sector. Companies within the Software & Services Industry Group may include, for example, companies developing and marketing internet software and services; providers of information technology and systems integration services; providers of commercial data processing and/or business outsourcing services; companies developing and producing database management, home entertainment, educational, specialty, enterprise, and business software; and other software and services companies.

The Investment Adviser employs a “manager of managers” investment approach, whereby it allocates the Fund’s assets to the Sub-adviser, Subject to the general supervision by the Fund’s Board, the Investment Adviser oversees the Sub-adviser and evaluates its performance results. The Investment Adviser reviews portfolio performance, characteristics and changes in key personnel of the Sub-adviser. Quantitative evaluations, including evaluations of performance and portfolio characteristics, is performed at least quarterly. The Sub-adviser is primarily responsible for the day-to-day management of the Fund’s portfolio, including purchases and sales of individual securities. Other sub-advisers may be added in the future to complement the Sub-adviser’s investment style. However, the Investment Adviser may when it deems appropriate, manage all or a portion of the Fund’s assets according to the Fund’s principal investment strategies.

The Sub-advisor’s focuses on identifying companies that it believes are qualitatively excellent through “bottoms-up” research, primarily involving a review of public documents; field work, including company site visits, industry trade shows, user conferences and product demonstrations; discussions with suppliers, customers and competitors; and other primary and secondary due diligence. The Fund will typically invest in companies with durable competitive advantages; the potential for high returns on invested capital; skilled, shareholder-friendly management teams; and large growth opportunities. After qualitative assessment is complete, the Sub-advisor values the companies that meet its criteria using a discounted cash flow model or other relevant

methods and invests in a limited number of companies that present the most compelling mix of qualitative characteristics (e.g., competitive position) and quantitative metrics (e.g., price in relation to intrinsic value). As one of several factors, embedded within the Sub-adviser's overall investment approach is the consideration of ESG criteria, that could be relevant to a company. The Sub-adviser defines ESG as a set of environmental, social and governance factors that the Sub-adviser, used to inform its view on a company's long-term sustainability of companies that are considered for investment. Examples of environmental criteria include air and water pollution or utilization of natural resources. Examples of social considerations include a company's working conditions or product safety. Governance examples include board structure or management compensation. A less favorable ESG profile may not preclude the Fund from investing in a company, as the consideration of ESG factors is not more influential than the consideration of other investment criteria.

The Fund intends to operate as a "non-diversified company" under the 1940 Act, which means that the Fund may invest a significant portion of its assets in the securities of a limited number of issuers. The Fund invests in at least 20 companies, each of which must meet the Sub-adviser's prescriptive fundamental criteria.

Because the Fund refers to small cap equity investments in its name, it will notify shareholders at least 60 days in advance of any changes in its investment policies that would enable the Fund to invest less than 80% of its assets in small cap equity securities under normal circumstances.

The Fund seeks to generate attractive returns over time but does not attempt to mirror a benchmark or an index.

Temporary Defensive Position

In response to adverse market, economic, political and other conditions, the Sub-adviser may make temporary defensive investments in liquid short-term instruments that are not consistent with the Fund's investment objective and principal investment strategies. Such investments may be inconsistent with the Fund's ability to reach its investment objective.

PRINCIPAL RISKS OF THE FUND

The principal risks of investing in the Fund and the circumstances reasonably likely to adversely affect an investment are listed and described below. The share price of the Fund changes daily, based on market conditions and other factors. A shareholder may lose money by investing in the Fund. There can be no assurance that the Fund will achieve its investment objective.

Small Cap Company Risk:

Small cap companies, when compared to larger companies, may experience lower trade volume and could be subject to greater and less predictable price changes. Small cap companies may also have limited management experience or depth, limited ability to generate or borrow capital needed for growth, limited products or services, or operate in less established markets. Therefore, small cap securities may be subject to changing economic, market, and industry conditions and experience more volatility and less liquidity over short periods. If a product fails, there are other adverse

developments, or if management changes, small cap company investments may lose substantial value. In addition, smaller companies, which tend to be less well known, have shorter operating histories and do not have significant ownership by large investors, may not have information as accessible as that of larger companies. In addition, small cap securities may be particularly sensitive to changes in interest rates, borrowing costs and earnings. In certain market cycles, investing in small cap companies may be less favorable when compared to larger companies causing the Fund to under-perform and incur losses.

Investment Risk:

As with all investments, an investment in the Fund is subject to investment risk. Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time. The share price of the Fund changes daily, based on market conditions and other factors. The Fund should not be relied upon as a complete investment program.

Market Risk:

The price of a security may fall due to changing economic, political, regulatory or market conditions, or due to a company's or issuer's individual situation. Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the market generally and on specific securities.

Equity Securities Risk:

Equity securities risk is the risk that prices of equity securities rise and fall daily. Price movements may occur due to factors affecting individual companies, such as the issuance of an unfavorable earnings report, or other events affecting particular industries or the equity market as a whole.

Non-Diversification Risk:

The Fund is classified as “non-diversified” pursuant to the definition provided in the 1940 Act, which means that it is not limited by the 1940 Act with regard to the portion of its assets that may be invested in the securities of a single issuer. The possible assumption of large positions in the securities of a small number of issuers may cause performance to fluctuate to a greater extent than that of a diversified investment company as a result of changes in the financial condition or in the market’s assessment of the issuers. However, the Fund intends to satisfy the asset diversification requirements for qualification as a RIC under Subchapter M of the Code.

Software & Services Industry Group Concentration Risk:

When a fund focuses its investments in a particular industry, group of industries, or sector, financial, economic, business, and other developments affecting issuers in those industries or sector will have a greater effect on the fund than if the fund had not focused its assets, which may increase the fund’s volatility. Market or economic factors impacting companies in the information technology sector could have a major effect on the value of the Fund’s investments. The value of stocks of information technology companies is particularly vulnerable to rapid changes in technology product cycles, government regulation and competition, both domestically and internationally, including competition from foreign competitors with lower production costs. Stocks of such companies, especially those of smaller, less-seasoned companies, tend to be more volatile than the overall market.

Information technology companies may be heavily dependent on patent and intellectual property rights, the loss or impairment of which may adversely affect profitability. Additionally, companies in the information technology sector may face unpredictable changes in growth rates and competition for the services of qualified personnel.

Computer software/services companies can be significantly affected by competitive pressures, aggressive pricing, technological developments, changing domestic demand, the ability to attract and retain skilled employees and availability and price of components. The market for products produced by computer software/services companies is characterized by rapidly changing technology, evolving industry standards and frequent new product introductions. The success of computer software/services companies depends in substantial part on the timely and successful introduction of new products and the ability to service such products. An unexpected change in one or more of the technologies affecting an issuer's products or in the market for products based on a particular technology could have a material adverse effect on a participant's operating results. Some computer software/services companies rely on a combination of patents, copyrights, trademarks and trade secret laws to establish and protect their proprietary rights in their products and technologies. There can be no assurance that the steps taken by computer software/services companies to protect their proprietary rights will be adequate to prevent misappropriation of their technology or that competitors will not independently develop technologies that are substantially equivalent or superior to such companies' technology.

Large Shareholder Risk:

From time to time, a large investor or an investment adviser, including BBH&Co., may allocate a portion of the assets under its discretion to the Fund. There is a risk that if a large percentage of Fund's outstanding shares are under the control of a single or a small number of decision makers, asset allocation decisions, particularly large redemptions, may adversely impact remaining Fund shareholders.

Management Risk:

The Fund is actively managed and its success depends upon the investment skills and analytical abilities of the Sub-adviser to develop and effectively implement strategies that achieve the Fund's investment objective. Subjective decisions made by the Sub-adviser may cause the Fund to incur losses or to miss profit opportunities on which it may otherwise have capitalized.

Investments in the Fund are neither insured nor guaranteed by the U.S. Government. Shares of the Fund are not deposits or obligations of, or guaranteed by, BBH&Co. or any other bank, and the shares are not insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other federal, state or other governmental agency.

PORTFOLIO HOLDINGS

Information concerning the Fund's portfolio holdings is available on the Fund's website at www.bbhfunds.com.

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information ("SAI").

III. MANAGEMENT OF THE FUND

BBH&Co., a New York limited partnership, located at 140 Broadway, New York, NY 10005 and established in 1818, serves as the investment adviser to the Fund through a separately identifiable department (the "Investment Adviser"). The Investment Adviser is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940.

BBH&Co. provides a broad range of investment management services for customers in the United States and abroad. As of December 31, 2023, BBH&Co. managed total assets of approximately \$86.3 billion, \$329.7 million of which represented total net assets in the Fund.

The Investment Adviser employs a “manager-of-managers” investment approach, whereby it allocates the Fund’s assets to the Sub-adviser. Subject to the general supervision by the Fund’s Board, the Investment Adviser oversees the Sub-adviser and evaluates its performance results. The Investment Adviser reviews portfolio performance, characteristics and changes in key personnel of the Sub-adviser. The Sub-adviser is primarily responsible for the day-to-day management of the Fund’s portfolio, including purchases and sales of individual securities. However, the Investment Adviser may, when it deems appropriate, manage all or a portion of the Fund’s assets according to the Fund’s principal investment strategies.

In addition to a continuous investment program, BBH&Co. serves as the Fund’s administrator, which provides administrative services to the Fund, such as shareholder communications and tax services.

Investment Advisory and Administrative Fee

For investment advisory and administrative services, the Investment Adviser receives a combined fee, computed daily and payable monthly, equal to 0.85% per annum for the first \$3 billion and 0.80% per annum for amounts over \$3 billion of the average daily net assets of the Fund. This fee compensates the Investment Adviser for its services and its expenses. The Investment Adviser may from time to time voluntarily waive all or a portion of its advisory and administrative fee from the Fund. For the most recent fiscal year, the Fund paid the Investment Adviser 0.85% of the Fund’s average daily net assets. The Investment Adviser pays a sub-advisory fee to the Sub-adviser out of its own assets. The Fund is not responsible for paying any portion of the sub-advisory fee to the Sub-adviser. A discussion of the Board’s most recent review of the

Fund's investment advisory and sub-advisory agreements will be available in the Fund's Semi-Annual Report for the period ending April 30, 2024.

Pursuant to an exemptive order the Fund and BBH&Co. received from the SEC, the Investment Adviser may select and replace sub-advisers and amend sub-advisory agreements without obtaining shareholder approval.

For shareholders with a discretionary investment management account managed by BBH&Co. ("BBH&Co. Account"), BBH&Co. will include the value of the shareholder's investment in the Fund when calculating the advisory fee applicable to such shareholder's BBH&Co. Account, which may result in the shareholder paying a higher overall fee to BBH&Co. on the shareholder's investment in the Fund.

The Sub-Adviser

Bares Capital Management, Inc., located at 12600 Hill Country Blvd Suite R-230, Austin, TX 78738, serves as the Fund's investment sub-adviser. Pursuant to a sub-advisory agreement with the Investment Adviser, and subject to the general supervision of the Board and the Investment Adviser, the Sub-adviser makes the day-to-day investment decisions for the Fund, places the purchase and sale orders for the portfolio transactions of the Fund, and generally manages the Fund's portfolio of investments. Certain information about the members of the Fund's portfolio management team is set forth below.

Mr. Brian Bares founded the Sub-adviser in 2000. Mr. Bares developed the Sub-adviser's investment philosophy and research process, and he is responsible for portfolio

management, investment due diligence, client relationships, and firm strategy. He is the author of *The Small-Cap Advantage*, published in 2011 by John Wiley & Sons. Mr. Bares is also an external advisor for the M.B.A. Investment Fund at The University of Texas at Austin. He received a B.S. from The University of Nebraska and has earned the CFA designation.

Mr. Jay Creel joined the Sub-adviser in 2012. Mr. Creel is responsible for portfolio management, investment due diligence, client relationships, and firm administration. Prior to joining the Sub-adviser, he was a general partner and investment analyst at Treaty Oak Capital Management and an investment banker at Molecular Securities and Deutsche Bank Securities. Mr. Creel received an A.B. (cum laude) from Princeton University.

Mr. Benjamin Huang joined the Sub-adviser in 2015. Mr. Huang is responsible for portfolio management, investment due diligence, and new idea generation. Prior to joining the Sub-adviser, he was an equity analyst intern at Bessemer Trust. Mr. Huang received an A.B. from Princeton University.

The Fund's SAI provides additional information about the portfolio managers' compensation, management of other accounts, and ownership of shares of the Fund.

IV. SHAREHOLDER INFORMATION

Fund Valuation Policies

The Fund's net asset value per share ("NAV") is normally determined once daily at 4:00 p.m., Eastern Time on each day the NYSE is open for regular trading ("Business Day"). The Fund does not calculate its NAV on days the NYSE is closed for trading. Information that becomes known to the Fund or its agents after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of a security or the NAV determined earlier that day. On days in which the NYSE closes early, the NAV may be determined before 4:00 p.m.

The determination of the Fund's NAV is made by subtracting from the value of the total assets of the Fund the amount of its liabilities and dividing the difference by the number of Fund's shares outstanding at the time the determination is made. The value of the Fund's portfolio may change on days when the Fund is not open for business and not available for purchase or redemption of Fund shares.

For purposes of calculating NAV, portfolio securities and other assets for which market quotes are readily available are valued at market value. Market value is determined on the basis of official closing prices or the last reported sales prices, or if no sales are reported, based on quotes obtained from established market makers or prices (including evaluated prices) supplied by the Fund's approved pricing services, quotation reporting systems and other third-party sources. Certain short-term debt instruments are valued on the basis of amortized cost.

Investments for which market quotations or market-based valuations are not readily available, or are available but deemed unreliable, are valued at fair value in accordance with policies and procedures approved by the Board. Under the ultimate supervision of the Board, the responsibility for applying the Board-approved fair valuation policies and procedures has been delegated to the Investment Adviser. Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information, bid/ask information, broker quotes, pricing services prices),

including where events occur after the close of the primary exchange or principal market, but prior to the NYSE close, that materially affect the price of the security or other asset.

In addition, market quotes are considered not readily available when, due to extraordinary circumstances, the exchanges or markets on which the securities trade are not open for trading for the entire day and no other market prices are available. The Fund may use a systematic fair value model provided by an independent third party to value foreign securities.

Fair value represents a good faith approximation of the value of a security. The fair value of one or more securities may not, in retrospect, be the price at which those assets could have been sold during the period in which the particular fair values were used in determining the Fund's NAV.

Revenue Sharing

BBH&Co. may make payments for marketing, promotional or related services provided by Financial Intermediaries that sell shares of the Fund. These payments are often referred to as "revenue sharing payments." The level of such payments may be based on factors that include, without limitation, differing levels or types of services provided by the intermediary, the expected level of assets or sales of shares, access to an intermediary's personnel and other factors. Revenue sharing payments are paid from BBH&Co.'s own legitimate profits and its own resources (not from the Fund). In some circumstances, such payments may create an incentive for a Financial Intermediary or its employees or associated persons to recommend or sell shares of a particular Fund to a potential shareholder instead of recommending shares offered by competing investment companies.

Contact your Financial Intermediary for details about revenue sharing payments.

Account Transactions

Purchase of Shares

The Fund offers shares through this Prospectus representing interests in a single portfolio of securities. Investors are only eligible to purchase shares of the Fund as described below.

The following individuals (referred to as “Eligible Investors”) may invest in the Fund and/or reinvest dividends and capital gains distributions from shares owned in the Fund:

- BBH&Co. private banking and/or private wealth management clients;
- investors with an agreement with Brown Brothers Harriman Investments, LLC or the Fund’s distributor permitting investment in the Fund;
- a Trustee or officer of the BBH Trust, or a partner or employee of BBH&Co. or its affiliates, or a member of the immediate family of any of those persons;
- an account for an employee benefit plan or retirement plan sponsored by BBH&Co.; and
- a partner, director, officer or employee of Bares Capital Management, Inc.

Eligible Investors may be asked to verify that they meet one of the eligibility requirements above prior to opening a new account in the Fund. The Fund may permit you to open a new account if the Fund reasonably believes that you are eligible. The Fund also may decline to permit you to open a new account if the Fund believes that doing so would not be in the best interests of the Fund and its shareholders, even if you would be eligible to open a new account.

The Fund's ability to enforce the eligibility requirements listed above with respect to accounts held by financial intermediaries may vary depending on the systems capabilities of those intermediaries, applicable contractual and legal restrictions and cooperation of those intermediaries.

Additional information that applies to the offering:

An existing investor that does not meet the above eligibility requirements and has been a shareholder in the Fund is able to continue to remain an investor in the Fund (an "Existing Shareholder") and may continue to reinvest dividends or capital gains distributions from shares owned in the Fund; however, the Existing Shareholder may not purchase additional shares of the Fund, either directly or as the beneficial owner of shares held in another account.

For an Existing Shareholder, if all shares of the Fund in an Existing Shareholder's account are voluntarily redeemed or involuntarily redeemed, then the Existing Shareholder's account will be closed. Once closed, such former Existing Shareholders will not be able to reopen their accounts in the Fund. These repurchase restrictions, however, do not apply to investors listed above as eligible to continue to purchase even if the Eligible Investor would liquidate its entire position.

If the Fund receives a purchase order directly from an investor who is not eligible to purchase shares of the Fund, the Fund's transfer agent will attempt to contact the investor to determine whether he or she would like to purchase shares of another Fund or would prefer that the investment be returned. If the transfer agent cannot contact the investor within 30 days, the entire amount of the investment will be returned.

The Fund reserves the right to change these policies at any time. The Fund may from time to time, in its sole discretion, limit new purchases into the Fund or otherwise modify the eligibility requirements at any time.

The Fund offers its shares to Eligible Investors on a continuous basis at the current NAV without a sales charge. Eligible Investors may purchase shares on any day the Fund's NAV is calculated. The Fund executes purchases of its shares at the NAV next determined after the Fund receives the purchase order in good order. Generally, a purchase order is considered to be in good order when the purchase payment is converted to federal funds. The Fund reserves the right to determine the purchase orders for Fund shares that it will accept.

An Eligible Investor may place purchase orders for Fund shares directly through the Transfer Agent or through a Financial Intermediary. Such orders will be priced at the NAV next calculated after the Fund receives the payment, through the Transfer Agent, in good order. Such orders that are placed directly through the Transfer Agent are held directly in the investor's name on the books of the Fund and the investor is responsible for arranging for payment of the purchase price of Fund shares.

Those Eligible Investors who buy shares of the Fund through a Financial Intermediary that is authorized to place trades in Fund shares for their customers will have such shares held in the Financial Intermediary's name pursuant to arrangements made with that customer. Each Financial Intermediary arranges payment for Fund shares on behalf of its customers and may charge a transaction fee payable to the Financial Intermediary on the purchase of Fund shares.

Shares of the Fund have not been registered for sale outside the U.S. The Fund generally does not sell shares to investors residing outside the U.S., even if they are U.S. citizens or lawful permanent residents, except to investors with U.S. military APO or FPO addresses.

Investment Minimums*

Minimum initial and subsequent purchase amounts may vary.

	Class I
Initial Purchases**	\$10,000
Subsequent Purchases	\$ 1,000

* The Fund may change these investment minimums from time to time. A Financial Intermediary may also establish and amend, from time to time, minimum initial and/or subsequent purchase requirements for its customers. The Fund may waive the initial and subsequent investment minimums for purchases by financial intermediaries.

** The Fund has waived the investment minimums for all BBH&Co. Partners, employees, Fund Trustees and their respective family members, who wish to invest in the Fund's shares.

Redemption of Shares

The Fund executes a redemption request at the NAV next calculated after the Fund receives the redemption request in good order. The Fund normally determines the Fund's NAV daily at 4:00 p.m. Eastern Time on each day that the equity markets of the NYSE are open for a regular day of trading. Under normal market conditions, redemption requests received in good order by 4:00 p.m. Eastern Time on any Business Day will be executed at that day's NAV. Orders received after 4:00 p.m. will be executed at the next day's NAV. Redemption requests received before 4:00 p.m. Eastern Time on any Business Day will typically be paid on the Business Day following the date on which the redemption request was received in good order. Redemption requests will be paid by federal funds wire transfer to the shareholder's designated account. In order to meet the redemption request, the Fund

typically expects to use available cash (or cash equivalents) or to sell portfolio securities. These methods may be used during both normal and stressed market conditions. While the Fund typically makes payments of redemption requests in cash, it has reserved the right to pay redemption proceeds by a distribution in-kind of portfolio securities when it deems appropriate.

How to Redeem Fund Shares

Shareholders must redeem shares held by a Financial Intermediary through that Financial Intermediary and follow the Financial Intermediary's procedures for redeeming Fund shares. For more information about how to redeem shares through a Financial Intermediary, contact the Financial Intermediary directly.

Shareholders may redeem shares held directly with the Fund by submitting a redemption request to the Transfer Agent. The Fund pays proceeds resulting from such redemption directly to the shareholder generally on the next Business Day after the redemption request is received in good order.

Redemption Fee

Fund shares that are redeemed within 30 days from the date of purchase will be subject to a redemption fee of 2.00% of the total redemption proceeds. The 30-day period shall commence on the next business day following the date your purchase order is received in good order by the Fund and shall apply to any redemption made on or before the 30th day from that date. The redemption fee is payable to the Fund and is intended to reduce the impact on remaining investors

in the Fund of the costs incurred by the Fund in meeting redemption requests from investors who are not long-term investors. For purposes of determining whether the redemption fee applies, shares held the longest will be redeemed first. See “Frequent Trading Policy” below for more information.

The Fund may sell shares to some 401(k) plans, 403(b) plans, bank or trust company accounts, and accounts of certain financial institutions or intermediaries that do not apply the redemption fee to underlying shareholders, often because of administrative or systems limitations. From time to time, with the approval of the Investment Adviser, the redemption fee will not be assessed on redemptions in certain circumstances. For more information on the waiver of the redemption fee, see “Purchases and Redemptions” in the Fund’s SAI.

Redemptions by the Fund

The Fund has established a minimum account size of \$10,000, which may be changed from time to time in its discretion. If the value of an account held directly with the Fund falls below the minimum account size because of a redemption of shares, the Fund reserves the right to redeem the shareholder’s remaining shares. If such remaining shares are to be redeemed, the Fund will notify the shareholder and will allow the shareholder 60 days to make an additional investment to meet the minimum requirement before the redemption is processed.

Each Financial Intermediary may establish its own minimum account requirements for its customers, which may be lower than those established for accounts held with the Fund.

Further Redemption Information

Redemptions of shares result in taxable events for a shareholder who may realize a gain or a loss.

The Fund has reserved the right to pay redemption proceeds by a distribution in-kind of portfolio securities (rather than cash). In the event that the Fund makes an in-kind distribution, you could incur brokerage and transaction charges when converting the securities to cash. Additionally, securities received through an in-kind redemption may be subject to market risk until such time as you can dispose of the securities. The Fund does not expect to make in-kind distributions, but if it does, the Fund will pay, during any 90-day period, your redemption proceeds in cash up to either \$250,000 or 1.00% of the Fund's net assets, whichever is less. In the event that the Fund meets a redemption request through a distribution in-kind, the Fund will analyze a variety of factors when selecting securities, including, tax implications, liquidity implications, portfolio transaction costs, fees and other costs associated with the transaction.

The Fund may suspend a shareholder's right to receive payment with respect to any redemption or postpone the payment of the redemption proceeds for up to seven days after tender, and for such other periods as applicable laws may permit.

Frequent Trading Policy

Frequent or short-term trading into and out of the Fund, or time-zone arbitrage (i.e., the purchase and sale of Fund securities in order to profit from price discrepancies between the time the price of the portfolio security is determined and the time the Fund's NAV is computed), can have adverse consequences for the Fund and shareholders who use the Fund as a long-term investment vehicle. Such trading in

significant amounts can disrupt the Fund's investment strategies (e.g., by requiring it to sell investments at inopportune times or maintain excessive short-term or cash positions to support redemptions), dilute the interests of other shareholders, increase brokerage and administrative costs and affect the timing and amount of taxable gains distributed by the Fund. Investors engaged in such trading may also seek to profit by anticipating changes in the Fund's NAV in advance of the time the NAV is calculated.

The Fund's Board has approved policies and procedures intended to discourage excessive frequent or short-term trading of the Fund's shares. As described above, the Fund imposes a 2.00% fee on redemptions of Fund shares made within 30 days from the date of purchase. The Board has not adopted any specific numerical restrictions on purchases and sales of Fund shares because certain legitimate strategies will not result in harm to the Fund or shareholders. The Fund also monitors trading in Fund shares in an effort to identify disruptive trading activity.

In addition, each agreement among the Fund, its distributor, and a Financial Intermediary will contain representations concerning the Financial Intermediary's policies and procedures to monitor, deter and report instances of market timing.

No matter how the Fund defines its limits on frequent trading of Fund shares, other purchases and sales of Fund shares, not deemed to be frequent trading, may have adverse effects on the management of the Fund's portfolio and its performance.

The Fund believes that its redemption fees and restrictions on short-term trading should apply to all shareholders, regardless of the number or type of accounts in which shares are held. However, the Fund anticipates that limitations on its ability to identify trading activity to specific shareholders,

including where shares are held through a Financial Intermediary in multiple or omnibus accounts, will mean that these restrictions may not be able to be applied uniformly in all cases.

The Investment Adviser may determine from the amount, frequency, or pattern of purchases and redemptions that a shareholder is engaged in excessive trading that is or could be detrimental to the Fund and other shareholders and may preclude the shareholder from making further purchases of Fund shares. If your purchase order is rejected, you will not be able to execute that transaction, and the Fund will not be responsible for any losses you may suffer.

Dividends and Distributions

The Fund normally pays to shareholders substantially all of the Fund's net income and capital gains, if any, annually. The Fund may pay additional dividends and/or capital gains distributions in a given year to the extent necessary to avoid the imposition of federal income or excise tax on the Fund. The Fund pays dividends and capital gains distributions to shareholders of record as of the record date.

Unless a shareholder whose shares are held directly in the shareholder's name on the books of the Fund elects to have dividends and capital gains distributions paid in cash, the Fund automatically reinvests dividends and capital gains distributions in additional Fund shares without reference to the minimum subsequent purchase requirement. There are no sales charges for the reinvestment of dividends.

Each Financial Intermediary may establish its own policy with respect to the reinvestment of dividends and capital gains distributions in additional Fund shares.

Taxes

Please consult your personal tax adviser regarding your specific questions about federal, state and local taxes. Below is a summary of certain important federal income tax issues that affect the Fund and its shareholders. This summary is based on current tax laws, which are subject to change. Unless you are a tax-exempt entity or your investment in Fund shares is made through tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when the Fund makes distributions and when you sell Fund shares.

The Fund has elected and intends to qualify each year for the special tax treatment afforded to a RIC under the Code. If the Fund maintains its qualification as a RIC and meets certain minimum distribution requirements, then the Fund is generally not subject to tax at the fund level on income and gains from investments that are timely distributed to shareholders. However, if the Fund fails to qualify as a RIC or to meet minimum distribution requirements it would result (if certain relief provisions were not available) in fund-level taxation and consequently a reduction in income available for distribution to shareholders.

Distributions you receive from the Fund will generally be subject to federal income tax, and any state or local income taxes, whether or not you reinvest them in additional shares. Income distributions are generally taxable either as ordinary income or as qualified dividend income. Dividends reported by the Fund as qualified dividend income are generally taxable at reduced tax rates for non-corporate shareholders. Any distributions of net capital gain (the excess of the Fund's net long-term capital gain over its net short-term capital loss) are taxable as long-term capital gains, regardless of how long you have owned your shares. Distributions of net short-term capital gains are generally taxable as ordinary income.

The Fund (or its administrative agent) will report to shareholders annually the U.S. federal income tax status of all Fund distributions.

In general, dividends may be reported by the Fund as qualified dividend income if they are attributable to qualified dividend income received by the Fund, which, in general, includes dividend income from taxable U.S. corporations and certain foreign corporations (i.e., certain foreign corporations incorporated in a possession of the U.S. or in certain countries with a comprehensive tax treaty with the U.S., and certain other foreign corporations if the stock with respect to which the dividend is paid is readily tradable on an established securities market in the U.S.), provided that the Fund satisfies certain holding period requirements in respect of the stock of such corporations and has not hedged its position in the stock in certain ways. A dividend generally will not be treated as qualified dividend income if the dividend is received with respect to any share of stock held by the Fund for fewer than 61 days during the 121-day period beginning at the date which is 60 days before the date on which such share becomes ex-dividend with respect to such dividend or, in the case of certain preferred stock, for fewer than 91 days during the 181-day period beginning 90 days before such date. These holding period requirements will also apply to your ownership of Fund shares.

Because the Fund may invest in foreign securities, it may be subject to foreign withholding taxes with respect to dividends or interest it receives from sources in foreign countries.

U.S. individuals with income exceeding certain thresholds are subject to a 3.8% tax on all or a portion of their “net investment income,” which includes interest, dividends, and certain capital gains (including capital gains distributions and capital gains realized on the sale or exchange of shares of the Fund). This 3.8% tax also applies to all or a portion of the undistributed net investment income of certain shareholders that are estates and trusts.

In general, your distributions are subject to federal income tax for the year in which they are paid. However, if the Fund declares a dividend in October, November or December, payable to shareholders of record in such a month, and pays it in January of the following year, shareholders will be taxed on the dividend as if it were received in the year in which it was declared.

You may want to avoid buying shares when the Fund is about to declare a dividend or other distribution because such dividend or other distribution will be taxable to you even though it may effectively be a return of a portion of your investment.

Each sale or redemption of Fund shares may be a taxable event. Assuming you hold your Fund shares as a capital asset, the gain or loss on the sale or redemption of the Fund’s shares generally will be treated as a short-term capital gain or loss if you held the shares for 12 months or less or a long-term capital gain or loss if you held the shares for longer than 12 months. Any loss recognized by you on the sale or redemption of Fund shares with a tax holding period of six months or less will be treated as a long-term capital loss to the extent of any amounts treated as distributions to you of long-term capital gain with respect to such shares. The ability to deduct capital losses may be limited.

If you are neither a citizen nor a resident of the United States, the Fund will withhold federal income tax at the rate of 30% (or such lower rate as may be determined in accordance with any applicable treaty) on ordinary dividends and other payments that are subject to such withholding.

The 30% withholding tax will not apply to dividends that the Fund reports as (a) interest-related dividends, to the extent such dividends are derived from the Fund's "qualified net interest income," or (b) short-term capital gain dividends, to the extent such dividends are derived from the Fund's "qualified short-term gain." "Qualified net interest income" is the Fund's net income derived from U.S.-source interest and original issue discount, subject to certain exceptions and limitations. "Qualified short-term gain" generally means the excess of the net short-term capital gain of the Fund for the taxable year over its net long-term capital loss, if any.

If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you will be subject to backup withholding on your redemption proceeds, distributions and dividends. The backup withholding rate is 24%. Backup withholding will not, however, be applied to payments that have been subject to the 30% withholding tax applicable to shareholders who are neither citizens nor residents of the United States.

The tax treatment of the Fund and its shareholders residing in those states and local jurisdictions that have income tax laws might differ from the treatment under federal income tax laws. Therefore, distributions to shareholders may be subject to additional state and local taxes. Shareholders are urged to consult their personal tax advisors regarding any state or local taxes.

For additional information regarding taxes, please refer to the SAI.

V. FINANCIAL HIGHLIGHTS

The Financial Highlights table is intended to help an investor understand the financial performance of the Fund for the past five years (or if shorter, the period of the Fund's operations). Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by Deloitte & Touche LLP, whose report, along with the Fund's financial statements, are included in the Fund's annual report, which is available upon request.

Selected per share data and ratios for a Class I share outstanding throughout each year/period.

	For the years ended October 31,		For the period from July 8, 2021 (commencement of operations) to October 31, 2021
	2023	2022	
Net asset value, beginning of year/period	<u>\$6.56</u>	<u>\$ 9.85</u>	<u>\$10.00</u>
Income from investment operations:			
Net investment loss ¹	(0.04)	(0.05)	(0.03)
Net realized and unrealized loss	<u>(0.03)</u>	<u>(3.18)</u>	<u>(0.12)</u>
Total (loss) from investment operations	<u>(0.07)</u>	<u>(3.23)</u>	<u>(0.15)</u>
Dividends and distributions to shareholders:			
From net realized gains	<u>—</u>	<u>(0.06)</u>	<u>—</u>
Total dividends and distributions to shareholders	<u>—</u>	<u>(0.06)</u>	<u>—</u>
Net asset value, end of year/period	<u>\$6.49</u>	<u>\$ 6.56</u>	<u>\$ 9.85</u>
Total return ²	(1.07)%	(32.97)%	(1.50)% ³
Ratios/Supplemental data:			
Net assets, end of year/period (in millions)	\$ 293	\$ 344	\$ 322
Ratio of expenses to average net assets before reductions	0.92%	0.92%	0.93% ⁴
Fee waiver ⁵	—%	0.00% ⁶	(0.01)% ⁴
Ratio of expenses to average net assets after reductions	0.92%	0.92%	0.92% ⁴
Ratio of net investment loss to average net assets	(0.56)%	(0.70)%	(0.83)% ⁴
Portfolio turnover rate	27%	16%	3% ³

¹ Calculated using average shares outstanding for the year/period.

² Assumes the reinvestment of distributions.

³ Not annualized.

⁴ Annualized with the exception of audit fees, legal fees and registration fees.

⁵ The ratio of expenses to average net assets for the years ended October 31, 2023, 2022 and the period ended October 31, 2021 reflect fees reduced as result of a voluntary operating expense waiver. For the years ended October 31, 2023, 2022 and the period from July 8, 2021 to October 31, 2021 the waived fee were \$-, \$2,089 and \$40,593, respectively.

⁶ Less than 0.01%.

**MORE INFORMATION ON THE FUND IS AVAILABLE FREE UPON REQUEST,
INCLUDING THE FOLLOWING:**

Annual/Semi-Annual Report

The Fund's annual and semi-annual reports to shareholders provide the Fund's investments, performance and list of portfolio holdings. The Fund's annual report contains a letter from the Fund's Investment Adviser discussing recent market conditions, economic trends and Fund strategies that significantly affected the Fund's performance during its last fiscal year.

To reduce expenses, we mail only one copy of the Fund's prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call us at 1-800-575-1265 or if your shares are held through a financial institution please contact them directly. We will typically send you individual copies within three business days after receiving your request.

Statement of Additional Information

The SAI provides more details about the Fund and its policies and information on the Fund's non-principal investment strategies. A current SAI is on file with the SEC and is incorporated by reference (and is legally considered part of this Prospectus).
