**SUPPLEMENT DATED MARCH 25, 2020 TO THE  
PROSPECTUS  
DATED FEBRUARY 28, 2020**

*The following information supplements and, to the extent inconsistent therewith, supersedes certain information in the BBH Limited Duration Fund prospectus. Defined terms not otherwise defined in this supplement have the same meaning as set forth in the prospectus.*

- I. The paragraph captioned Market Risk under the Principal Risks of the Fund section of the prospectus on pages 11 and 26 is hereby deleted in its entirety and replaced with the following paragraph:**

**Market Risk:**

Market risks, including political, regulatory, economic and social developments, can result in market volatility and can affect the value of the fund's investments. Natural disasters, the spread of infectious illness and other public health emergencies, recession, terrorism and other unforeseeable events may lead to increased market volatility and may have adverse effects on world economies and markets generally.

**PLEASE RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE.**

**BBH LIMITED DURATION FUND**  
*CLASS N SHARES (TICKER BBBMX)*  
*CLASS I SHARES (TICKER BBBIX)*

These securities have not been approved or disapproved by the U.S. Securities and Exchange Commission ("SEC") or any state securities commission, nor has the SEC or any state securities commission passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

Beginning on January 1, 2021, as permitted by regulations adopted by the U.S. Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications electronically from the Fund by calling 1-800-575-1265 or from your financial intermediary.

You may elect to receive all future reports in paper free of charge. You can inform the Fund by calling 1-800-575-1265 or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports. Your election to receive reports in paper may apply to all funds in the fund complex or held with your financial intermediary.

# I. BBH LIMITED DURATION FUND SUMMARY

## INVESTMENT OBJECTIVE

---

The investment objective of the BBH Limited Duration Fund (the “Fund”) is to provide maximum total return, consistent with preservation of capital and prudent investment management.

## FEES AND EXPENSES OF THE FUND

---

The table below describes the fees and expenses that you may pay if you buy and hold the Fund’s Class N Shares and Class I Shares.

### Shareholder Fees

---

(Fees paid directly from your investment)

	<u>Class N</u>	<u>Class I</u>
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None	None
Maximum Deferred Sales Charge (Load)	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None	None
Redemption Fee (as a percentage of amount redeemed, if applicable)	None	None
Exchange Fee	None	None

## Annual Fund Operating Expenses

(Expenses that you pay each year as a percentage of the value of your investment)

	<u>Class N</u>	<u>Class I</u>
Management Fees	0.26%	0.26%
Distribution (12b-1) Fees	None	None
Other Expenses	<u>0.25%</u>	<u>0.02%</u>
Total Annual Fund Operating Expenses	0.51%	0.28%
Less Fee Waiver/Expense Reimbursement*	<u>(0.16)%</u>	<u>0.00%</u>
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement	<u>0.35%</u>	<u>0.28%</u>

\* The investment adviser has contractually agreed to limit the Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions, other expenditures that are capitalized in accordance with generally accepted accounting principles, and other extraordinary expenses not incurred in the ordinary course of the Fund's business) for Class N Shares to 0.35%, until March 1, 2021 (the "Expense Limitation Agreement"). The Expense Limitation Agreement may only be terminated during its term with approval of the Fund's Board of Trustees (the "Board").

## EXAMPLE

This example is intended to help you compare the cost of investing in the Fund's Class N Shares and Class I Shares to the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund's Class N Shares and Class I Shares for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the operating expenses of the Fund's Class N Shares and Class I Shares remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class N Shares	\$36	\$148	\$270	\$626
Class I Shares	\$29	\$ 90	\$157	\$355

## Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in

annual fund operating expenses or in the example above, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 53% of the average value of its portfolio.

## PRINCIPAL INVESTMENT STRATEGIES

---

The Fund seeks to achieve its investment objective by investing in a well-diversified portfolio of durable, performing fixed income instruments. These investments will be primarily focused in asset-backed securities, notes and bonds issued by domestic and foreign corporations and financial institutions and the U.S. Government, government agencies and government guaranteed issuers. The Fund may purchase mortgage-backed securities and sovereign debt when the investment adviser believes that the additional returns from these securities justify the risk of allocations to these asset classes.

The Fund may invest in money market instruments, repurchase agreements, reverse repurchase agreements, commercial paper, derivative instruments, including futures, swaps and options and private placement securities, including Rule 144A and Regulation S securities, to meet its investment objective. The Fund will invest primarily in investment grade securities but may invest in securities rated below investment grade when the investment adviser believes that the additional income from these securities justifies the higher risk.

## PRINCIPAL RISKS OF THE FUND

---

The principal risks of investing in the Fund and the circumstances reasonably likely to adversely affect an investment are listed and described below. The share price of the Fund changes daily, based on market conditions and other factors. A shareholder may lose money by investing in the Fund. There can be no assurance that the Fund will achieve its investment objective.

**Issuer Risk:**

The value of a security may decline for a number of reasons which directly relate to the issuer, such as management performance, financial leverage and reduced demand for the issuer's goods or services.

**Credit Risk:**

Credit risk refers to the likelihood that an issuer, guarantor, or the counterparty to a derivative contract or repurchase agreement, will default on interest or principal payments. For asset-backed and commercial mortgage-backed securities, there is risk that the impairment of the value of the collateral underlying the security, such as non-payment of loans, will result in a default on interest or principal payments. Credit risk is heightened to the extent the Fund invests in below investment grade securities.

**Asset-Backed Securities (“ABS”) Risk:**

Credit risk is an important issue in ABS because of the significant credit risks inherent in the underlying collateral and because issuers are primarily private entities. Credit risk arises from losses due to defaults by the borrowers in the underlying collateral or the issuer's or servicer's failure to perform. Market risk arises from the cash-flow characteristics of the security, which for many ABS tend to be predictable. The greatest variability in cash flows comes from credit performance, including the presence of early amortization or acceleration features designed to protect the investor if credit losses in the portfolio rise well above expected levels. Interest rate risk arises for the issuer from the relationship between the pricing terms on the underlying collateral and the terms of the rate paid to security holders. ABS also are subject to the risk that a change in interest rates

may influence the pace of prepayments of the underlying securities which, in turn, affects yields on an absolute basis. Liquidity risk can arise from increased perceived credit risk. Illiquidity can also become a significant problem if concerns about credit quality, for example, lead investors to avoid the securities issued by the relevant special-purpose entity. Operations risk arises through the potential for misrepresentation of asset quality or terms by the originating institution, misrepresentation of the nature and current value of the assets by the servicer and inadequate controls over disbursements and receipts by the servicer.

Structural risk may arise through investments in ABS with structures (for example, the establishment of various security tranches) that are intended to reallocate the risks entailed in the underlying collateral (particularly credit risk) in ways that give certain investors less credit risk protection (i.e., a lower priority claim on the cash flows from the underlying pool of assets) than others. As a result, such securities have a higher risk of loss as a result of delinquencies or losses on the underlying assets.

### **Management Risk:**

The Fund is actively managed and its success depends upon the investment skills and analytical abilities of the investment adviser to develop and effectively implement strategies that achieve the Fund's investment objective. Subjective decisions made by the investment adviser may cause the Fund to incur losses or to miss profit opportunities on which it may otherwise have capitalized.

### **U.S. Government Agency Securities Risk:**

Certain U.S. government agency securities are backed by the right of the issuer to borrow from the U.S. Treasury while others are supported only by the credit of the issuer or instrumentality. While the U.S. Government has historically provided financial support to U.S. government-sponsored agencies or instrumentalities during times of financial stress, such as the various actions taken to stabilize the Federal National Mortgage Association

and Federal Home Loan Mortgage Corporation during the credit crisis of 2008, no assurance can be given that it will do so in the future. Such securities are neither issued nor guaranteed by the U.S. Treasury.

### **Interest Rate Risk:**

Interest rate risk refers to the price fluctuation of a bond in response to changes in interest rates. The Fund's investments in bonds and other fixed income securities will change in value in response to fluctuations in interest rates. In general, fixed-rate bonds with shorter maturities are less sensitive to interest rate movements than those with longer maturities, (i.e. when interest rates increase, bond prices fall). Rising interest rates tend to cause the prices of debt securities (especially those with longer maturities) to fall which could result in a decrease of the net asset value ("NAV") of the Fund. The Fund may invest in variable and floating rate securities. Although these instruments are generally less sensitive to interest rate changes than fixed rate instruments, the value of variable and floating rate securities may decline if their interest rates do not rise as quickly, or as much, as general interest rates. The Fund's fixed income investments may be subject to heightened risk associated with rising interest rates given the current historically low interest rate environment.

A rising rate environment may also result in periods of volatility and increased redemptions. As a result of increased redemptions, the Fund may have to liquidate fixed income securities at disadvantageous prices and times, or at a loss, which could adversely affect the performance of the Fund. While the Fund may use futures contracts and futures options to hedge against anticipated changes in interest

rates, there can be no guarantee that the Fund will be able to successfully hedge interest rate exposures.

**Maturity Risk:**

Interest rate risk, as discussed above, will generally affect the price of a fixed income security more if the security has a longer maturity.

**Prepayment Risk:**

The Fund's investments are subject to the risk that in times of declining interest rates, the Fund's higher yielding securities will be prepaid and the Fund will have to replace them with securities potentially having a lower yield.

**Mortgage-Backed Securities Risk:**

Borrowers may default on their mortgage obligations or the guarantees underlying the mortgage-backed securities. In addition, during periods of falling interest rates mortgage-backed securities may be called or prepaid, which may result in the Fund having to reinvest proceeds in other investments at a lower interest rate. A fund holding mortgage-related securities may exhibit additional volatility during periods of fluctuating interest rates.

**Liquidity Risk:**

Liquidity risk exists when a particular instrument is difficult to purchase or sell. Size of a transaction or illiquid markets may be factors.

**Regulation S Securities Risk:**

The Fund may invest in private placement securities that cannot be offered for public resale unless registered under the applicable securities laws or that have a contractual restriction that prohibits or limits their resale. Private placement securities are securities that have not been registered under the applicable securities laws, such as Rule 144A securities, and securities of U.S. and non-U.S. issuers that are issued pursuant to Regulation S. Restricted

securities may not be listed on an exchange and may have no active trading market, resulting in the security being deemed illiquid.

### **Shareholder Concentration Risk:**

Asset allocation decisions, particularly large redemptions, made by an investment adviser whose discretionary clients make up a large percentage of the Fund's shareholders may adversely impact remaining Fund shareholders.

### **Derivatives Risk:**

Derivatives are financial contracts whose value depends on, or is derived from, the value of an underlying asset or index. Risks of investing in derivatives are different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Risks include liquidity risk, interest rate risk, market risk, credit risk, risk of mis-pricing or improper valuation and the risk of miscorrelation. The Fund could lose more than the principal amount invested.

### **Foreign Investment Risk:**

Investing in securities of foreign-based companies involves risks not typically associated with investing in securities of companies organized and operated in the United States. These risks include adverse political, social and economic developments abroad, different kinds and levels of market and issuer regulations, and the different characteristics of overseas economies and markets. These factors can make foreign investments more volatile and potentially less liquid than U.S. investments. Changes in foreign currency exchange rates can affect the value of the Fund's portfolio.

**Investment Risk:**

Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time.

**Leverage Risk:**

Leverage can result from borrowing or from an investment in reverse repurchase agreements and, in some cases, derivative contracts that may result in leverage to the Fund. Leverage risk is created when an investment exposes the Fund to a level of risk that exceeds the amount invested. Leveraging is speculative, tends to exaggerate the effect of any increase or decrease in the value of the Fund's securities and may cause the Fund to be more volatile.

**Market Risk:**

The price of a security may fall due to changing economic, political, regulatory or market conditions, or due to a company's or issuer's individual situation.

**Sovereign Debt Risk:**

Bonds issued by foreign governments, sometimes referred to as "sovereign" debt, present risks not associated with investments in other types of bonds. The government or agency issuing the debt may be unable or unwilling to make interest payments and/or repay the principal owed. In such instance, the Fund may have limited recourse against the issuing government or agency.

## FUND PERFORMANCE

---

The following bar chart and table give an indication of the risks involved with an investment in the Fund. The bar chart shows changes in the performance of the Fund's Class I shares from year to year. The table shows how the average annual returns of the Fund's Class N Shares and Class I Shares for the periods indicated compared to a broad-based market index, as well as to a reference benchmark comprised of related indices. One cannot invest directly in an index.

When you consider this information, please remember that the Fund's performance (before and after taxes) in past years is not necessarily an indication of how the Fund will perform in the future. Updated information on the Fund's performance can be obtained by visiting [www.bbhfunds.com](http://www.bbhfunds.com) or can be obtained by phone at 1-800-575-1265.

**Total Return for Class I Shares (% Per Calendar Year)**

---

Highest Performing Quarter: 1.68% in 3<sup>rd</sup> quarter of 2010

Lowest Performing Quarter: (0.53%) in 3<sup>rd</sup> quarter of 2015

## Average Annual Total Returns (Through December 31, 2019)

The Fund's performance figures assume that all distributions were reinvested in the Fund. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns for Class I Shares will differ from those shown for Class N Shares. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown for only one class and after-tax returns for other classes will vary.

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>
<b>Class N Shares</b>			
Return Before Taxes	4.29%	2.25%	2.12%
Return After Taxes on Distributions	3.05%	1.28%	1.28%
Return After Taxes on Distributions and Sale of Fund Shares	2.53%	1.29%	1.28%
<b>Class I Shares</b>			
Return Before Taxes	4.37%	2.41%	2.28%
<b>Barclays Capital U.S. 1-3 Year Treasury Bond Index</b> (reflects no deduction for fees, expenses or taxes)	3.59%	1.39%	1.23%
<b>Reference Benchmark</b> (an unmanaged weighted index comprised as follows: 40% Bloomberg Barclays Short-Term Corporate Index; 40% Bloomberg Barclays US Aggregate ABS Index; and 20% Bloomberg Barclays US Treasury Bills Index)	3.51%	1.99%	1.86%

## INVESTMENT ADVISER

---

Brown Brothers Harriman & Co. ("BBH&Co."), through a separately identifiable department, is the Fund's investment adviser (the "Investment Adviser").

## Portfolio Managers

Name	BBH&Co. Title	Portfolio Manager of the Fund Since
Andrew P. Hofer	Managing Director	2011
Neil Hohmann	Managing Director	2013

## PURCHASE AND SALE OF FUND SHARES

---

Shares of the Fund may be purchased or sold (redeemed) on any business day (normally any day when the New York Stock Exchange (“NYSE”) is open). Shareholders may redeem shares held directly in the name of a shareholder on the books of the Fund by submitting a redemption request to the Fund’s transfer agent, ALPS Fund Services, Inc. (“Transfer Agent”). If shares are held by a bank, broker or other financial intermediary with which the Fund or its shareholder servicing agent has contracted (“Financial Intermediary”) on behalf of such shareholder, then shareholders must redeem shares through such Financial Intermediary.

### Investment Minimums

Minimum initial and subsequent purchase amounts vary.

	<u>Class N</u>	<u>Class I</u>
Initial Purchases	\$5,000	\$50,000
Subsequent Purchases	\$1,000	\$ 5,000

## TAX INFORMATION

---

The Fund’s distributions are generally taxable to you as ordinary income, capital gains, or a combination of the two.

## PAYMENTS TO FINANCIAL INTERMEDIARIES

---

If you purchase shares of the Fund through a Financial Intermediary, a distributor and/or BBH&Co., as applicable, may pay the Financial Intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the Financial Intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your Financial Intermediary's website for more information.

## II. INVESTMENT OBJECTIVE, PRINCIPAL INVESTMENT STRATEGIES AND PRINCIPAL RISKS

### INVESTMENT OBJECTIVE

---

The investment objective of the Fund is to provide maximum total return, consistent with preservation of capital and prudent investment management. The investment objective may be changed by the Board without a vote of the shareholders. There can be no assurance that the Fund will achieve its investment objective.

### PRINCIPAL INVESTMENT STRATEGIES

---

The Investment Adviser will invest the assets of the Fund in a well-diversified portfolio of durable, performing fixed income instruments. These investments will be primarily focused in asset-backed securities, notes and bonds issued by domestic and foreign corporations and financial institutions and the U.S. Government, government agencies and government guaranteed issuers. The Fund may purchase mortgage backed securities, and sovereign debt when the Investment Adviser believes that the additional income from these securities justifies the higher risk of allocations to these asset classes. The Fund may invest in money market instruments, repurchase agreements, reverse

repurchase agreements, derivative instruments and private placement securities, including Rule 144A and Regulation S securities to meet its investment objective.

Despite comparisons contained in the Fund's shareholder reports, the Fund will not measure its performance success nor alter its construction in relation to any particular benchmark or index. Instead, the Fund will seek to preserve capital and to generate a positive absolute return, while attempting to avoid instances of negative total return over extended periods of time. The Fund will have the flexibility to invest in the sectors, industries, securities and durations that the Investment Adviser identifies as offering attractive risk-adjusted returns consistent with the Fund's investment objective. The Investment Adviser's investment approach includes consideration of environmental, social and governance (ESG) criteria which enhances its ability to manage risk and to achieve its long-term investment objectives.

While the assets of the Fund will be primarily invested in securities denominated in U.S. dollars, some investments may be denominated in other currencies. The Fund will invest primarily in investment grade securities but may invest in fixed income securities rated below investment grade when the Investment Adviser believes that the additional income from these securities justifies the high risk. In response to adverse market, economic, political and other conditions, the Investment Adviser may make temporary investments for the Fund that are not consistent with its investment objective and principal investment strategies. Such investments may prevent the Fund from achieving its investment objective.

### **Mortgage-Backed and Asset-Backed Securities:**

Mortgage-backed securities are collateralized by pools of residential or commercial mortgage loans, including first and second mortgage loans made by savings and loan institutions, mortgage bankers, commercial banks and others. Pools of mortgage loans are assembled as securities for sale to investors by various governmental, government-related and private organizations. Asset-backed securities are collateralized by pools of obligations or assets. Most asset-backed securities involve pools of consumer or commercial debts with maturities of less than ten years. However, almost any type of asset may be used to create an asset-backed security. Asset-backed securities may take the form of commercial paper, notes, or pass through certificates. Asset-backed securities have prepayment risks. Mortgage and asset-backed securities may be structured as floaters, inverse floaters, interest only and principal only obligations.

### **Derivative Instruments:**

Rather than investing directly in the securities in which the Fund invests, the Fund may use derivatives investments to gain or reduce exposure to market movements related to such securities, or to other risks such as interest rate or currency risk. The Fund may, but is not required to use, derivative instruments for risk management purposes or as part of its investment strategies. The Investment Adviser may decide not to employ any of these strategies and there is no assurance that any derivatives strategy used by the Fund will succeed. Derivative investments primarily include futures, but may also include swaps and options contracts.

### **Futures Contracts:**

Common features of future contracts include: (1) standardized contract features; (2) traded on organized exchanges; and (3) limited maturity, usually 3 months. As the price of the underlying security changes day to day, the value of the future contract also changes. Both buyer and seller recognize this daily gain or loss by transferring the relative gain or loss to the other party. This

is called “the daily margin” requirement. The use of futures gives the Investment Adviser flexibility in managing the investment risk of the Fund.

**Credit Quality:**

The Fund will invest primarily in investment grade securities (rated Baa3/BBB- or better). The Investment Adviser may invest a portion of the assets of the Fund in fixed income securities rated below investment grade or, if unrated, determined by the Investment Adviser to be of comparable quality. Credit ratings for individual holdings are assigned by nationally recognized statistical rating organizations (“NRSRO”) such as Moody’s Investor Service (“Moody’s”) or Standard & Poor’s (“S&P”).

## **PRINCIPAL RISKS OF THE FUND**

---

The following section provides additional information regarding the principal risks of the Fund. The share price of the Fund changes daily, based on market conditions and other factors. A shareholder may lose money by investing in the Fund. There can be no assurance that the Fund will achieve its investment objective.

**Issuer Risk:**

The value of a security may decline for a number of reasons, which directly relate to the issuer, such as management performance, financial leverage and reduced demand for the issuer’s goods or services.

**Credit Risk:**

Credit risk refers to the likelihood that an issuer will default on interest or principal payments. The financial condition of an issuer of a debt security or other instrument may cause it to default or become unable to pay interest or principal due. For asset-backed securities and commercial mortgage-backed securities, there is risk that the impairment of the collateral underlying the security, such as non-payment of loans, will result in a default on interest or principal payments. The Fund cannot collect interest and principal payments on a security or instrument if the issuer defaults. While the Fund attempts to limit credit exposure in a manner consistent with its investment objective, the value of an investment in the Fund may change quickly and without warning in response to issuer defaults and changes in the credit ratings of the Fund's portfolio investments.

**Asset-Backed Securities (“ABS”) Risk:**

Credit risk is an important issue in ABS because of the significant credit risks inherent in the underlying collateral and because issuers are primarily private entities. Credit risk arises from losses due to defaults by the borrowers in the underlying collateral or the issuer's or servicer's failure to perform. Market risk arises from the cash-flow characteristics of the security, which for many ABS tend to be predictable. The greatest variability in cash flows comes from credit performance, including the presence of early amortization or acceleration features designed to protect the investor if credit losses in the portfolio rise well above expected levels. Interest rate risk arises for the issuer from the relationship between the pricing terms on the underlying collateral and the terms of the rate paid to security holders. ABS also are subject to the risk that a change in interest rates may influence the pace of prepayments of the underlying securities which, in turn, affects yields on an absolute basis. Liquidity risk can arise from increased perceived credit risk. Illiquidity can also become a significant problem if concerns about credit quality, for example, lead investors to avoid the securities issued by the relevant special-purpose entity. Operations risk arises through the potential for misrepresentation of asset quality or terms by the originating institution,

misrepresentation of the nature and current value of the assets by the servicer and inadequate controls over disbursements and receipts by the servicer. Structural risk may arise through investments in ABS with structures (for example, the establishment of various security tranches) that are intended to reallocate the risks entailed in the underlying collateral (particularly credit risk) in ways that give certain investors less credit risk protection (i.e., a lower priority claim on the cash flows from the underlying pool of assets) than others. As a result, such securities have a higher risk of loss as a result of delinquencies or losses on the underlying assets.

#### **Management Risk:**

The Fund is actively managed and its success depends upon the investment skills and analytical abilities of the Investment Adviser to develop and effectively implement strategies that achieve the Fund's investment objective. Subjective decisions made by the Investment Adviser may cause the Fund to incur losses or to miss profit opportunities on which it may otherwise have capitalized.

#### **U.S. Government Agency Securities Risk:**

Certain U.S. government agency securities are backed by the right of the issuer to borrow from the U.S. Treasury while others are supported only by the credit of the issuer or instrumentality. While the U.S. Government has historically provided financial support to U.S. government-sponsored agencies or instrumentalities during times of financial stress, such as the various actions taken to stabilize the Federal National Mortgage Association and Federal Home Loan Mortgage Corporation during the credit crisis of 2008, no

assurance can be given that it will do so in the future. Such securities are neither issued nor guaranteed by the U.S. Treasury.

### **Interest Rate Risk:**

Interest rate risk refers to the price fluctuation of a bond in response to changes in interest rates. The Fund's investments in bonds and other fixed income securities will change in value in response to fluctuations in interest rates. In general, fixed-rate bonds with shorter maturities are less sensitive to interest rate movements than those with longer maturities, (i.e. when interest rates increase, bond prices fall). Rising interest rates tend to cause the prices of debt securities (especially those with longer maturities) to fall which could result in a decrease of the NAV of the Fund. The Fund may invest in variable and floating rate securities. Although these instruments are generally less sensitive to interest rate changes than fixed rate instruments, the value of variable and floating rate securities may decline if their interest rates do not rise as quickly, or as much, as general interest rates. The Fund's fixed income investments may be subject to heightened risk associated with rising interest rates given the current historically low interest rate environment.

A rising rate environment may also result in periods of volatility and increased redemptions. As a result of increased redemptions, the Fund may have to liquidate fixed income securities at disadvantageous prices and times, or at a loss, which could adversely affect the performance of the Fund. While the Fund may use futures contracts and futures options to hedge against anticipated changes in interest rates, there can be no guarantee that the Fund will be able to successfully hedge interest rate exposures.

### **Maturity Risk:**

Interest rate risk will generally affect the price of a fixed income security more if the security has a longer maturity. Fixed income securities with longer maturities will therefore be more volatile than other fixed income securities with shorter maturities. Conversely, fixed income securities with shorter maturities will be less volatile but generally provide lower returns than fixed

income securities with longer maturities. The average maturity of the Fund's investments will affect the volatility of the Fund's share price.

### **Prepayment Risk:**

The Fund's investments are subject to the risk that when interest rates fall certain obligations will be prepaid and that the Fund may have to invest the proceeds in securities with lower yields. In periods of falling interest rates, the rate of prepayment tends to increase as borrowers are more likely to pay off debt and refinance at lower rates. During these periods, reinvestment of the prepayment proceeds will generally be at lower rates of return than the return on assets that were prepaid.

### **Mortgage-Backed Securities Risk:**

Borrowers may default on their mortgage obligations or the guarantees underlying the mortgage-backed securities will default or otherwise fail and that, during periods of falling interest rates, mortgage-backed securities will be called or prepaid, which may result in the Fund having to reinvest proceeds in other investments at a lower interest rate (prepayment risk). During periods of rising interest rates, the average life of a mortgage-backed security may extend, which may lock in a below-market interest rate, increase the security's duration, and reduce the value of the security (extension risk). Enforcing rights against the underlying assets or collateral may be difficult, or the underlying assets or collateral may be insufficient if the issuer defaults. As a result, in a period of fluctuating interest rates, a fund that holds mortgage-related securities may exhibit additional volatility.

**Liquidity Risk:**

Liquidity risk exists when a particular instrument is difficult to purchase or sell. If a transaction is particularly large or if the relevant market is illiquid (as is the case with many restricted securities), it may not be possible to initiate a transaction or liquidate a position at an advantageous time or price. Securities in the Fund are generally less liquid than many other investments including but not limited to securities issued by the U.S. Government, commercial paper and those of higher rated investment grade corporate securities.

**Regulation S Securities:**

Regulation S securities of U.S. and non-U.S. issuers are issued through private placements without registration with the SEC pursuant to Regulation S of the Securities Act of 1933. Private placements are generally subject to strict restrictions on resale. Privately placed securities may not be listed on an exchange and may have no active trading market, and as such may be illiquid. The Fund may be unable to sell a private placement security on short notice or may be able to sell them only at a price below current value. It may be more difficult to determine a market value for a restricted security. Also, the Fund may get only limited information about the issuer of a private placement security, so it may be less able to predict a loss. In addition, if Fund management receives material non-public information about the issuer, the Fund may as a result be unable to sell the securities. Certain private placement securities may involve a high degree of business and financial risk and may result in substantial losses.

**Shareholder Concentration Risk:**

From time to time, an investment adviser, including BBH&Co., may allocate a portion of the assets of its discretionary clients to the Fund. There is a risk that if a large percentage of Fund shareholders consists of such investment adviser's discretionary clients, such asset allocation decisions, particularly large redemptions, may adversely impact remaining Fund shareholders.

**Derivatives Risk:**

Derivatives are financial contracts whose value depends on, or is derived from, the value of an underlying asset, reference rate or index. The Fund's use of derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Derivatives are subject to a number of risks described elsewhere in this section, such as liquidity risk, interest rate risk, market risk, counterparty risk and credit risk. They also involve the risk of mispricing or improper valuation and the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index. By investing in a derivative instrument, the Fund could lose more than the principal amount invested. Also, suitable derivative transactions may not be available in all circumstances and there can be no assurance that the Fund will engage in these transactions to reduce exposure to other risks when that would be beneficial.

**Foreign Investment Risk:**

Investing in securities of foreign-based companies involves risks not typically associated with investing in securities of companies organized and operated in the United States. These risks include changes in political, social or economic conditions, diplomatic relations, confiscatory taxation, expropriation, nationalization, limitation on the removal of funds or assets, or imposition of (or change in) exchange control or tax regulations. In some foreign countries, less information is available about foreign issues and markets because of less rigorous accounting and regulatory standards than in the United States. In addition, foreign stock exchanges and brokers generally have less

government supervision and regulation than in the United States. Dividends and interest on foreign securities may be subject to foreign withholding taxes, which may reduce the net return to Fund shareholders. Foreign securities are often denominated in a currency other than the U.S. dollar, which will subject the Fund to the risks associated with fluctuations in currency values. Currency fluctuations could offset investment gain or add to investment losses. All of these factors can make foreign investments more volatile and potentially less liquid than U.S. investments.

**Investment Risk:**

As with all investments, an investment in the Fund is subject to investment risk. Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or even long periods of time. The share price of the Fund changes daily, based on market conditions and other factors. The Fund should not be relied upon as a complete investment program.

**Leverage Risk:**

Leverage may result from borrowing and from investment in reverse repurchase agreements and in some cases, derivative contracts. Leveraging is speculative and may cause the Fund to be more volatile than if the Fund had not been leveraged. This is because leverage tends to exaggerate the effect of any increase or decrease in the value of the Fund's securities. The use of leveraging may cause the Fund to liquidate portfolio positions when it may not be advantageous to do so to satisfy its obligations or to meet segregation requirements.

**Market Risk:**

The price of a security may fall due to changing economic, political, regulatory or market conditions, or due to a company's or issuer's individual situation.

**Sovereign Debt Risk:**

Bonds issued by foreign governments, sometimes referred to as "sovereign" debt, present risks not associated with investments in other types of bonds. The government or agency issuing the debt may be unable or unwilling to make interest payments and/or repay the principal owed. In such instance, the Fund may have limited recourse against the issuing government or agency.

**Investments in the Fund are neither insured nor guaranteed by the U.S. Government. Shares of the Fund are not deposits or obligations of, or guaranteed by, BBH&Co. or any other bank, and the shares are not insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other federal, state or other governmental agency.**

## PORTFOLIO HOLDINGS

---

Information concerning the Fund's portfolio holdings is available on the Fund's website at [www.bbhfunds.com](http://www.bbhfunds.com). A complete listing of the Fund's portfolio holdings as of the end of each month is posted on the website approximately 15 days after the end of the month and remains posted until replaced by the information for the succeeding month.

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information ("SAI").

### III. MANAGEMENT OF THE FUND

BBH&Co., a New York limited partnership, located at 140 Broadway, New York, NY 10005 and established in 1818, serves as the investment adviser to the Fund through a separately identifiable department (the "Investment Adviser"). The Investment Adviser is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940.

Subject to the general supervision of the Fund's Board of Trustees (the "Board"), the Investment Adviser makes the day-to-day investment decisions for the Fund, places the purchase and sale orders for the portfolio transactions of the Fund, and generally manages the Fund's portfolio of investments. BBH&Co. provides a broad range of investment management services for customers in the United States and abroad. As of December 31, 2019, BBH&Co. managed total assets of approximately \$72.2 billion, \$7.5 billion of which represented total net assets in the Fund.

In addition to a continuous investment program, BBH&Co. serves as the Fund's Administrator, which provides administrative services to the Fund, such as shareholder communications and tax services.

#### **Investment Advisory and Administrative Fee**

For investment advisory and administrative services, the Investment Adviser receives a combined fee, computed daily and payable monthly, equal to 0.30% for the first \$1 billion and 0.25% for amounts over \$1 billion of the average daily net assets of the Fund. This fee compensates the Investment Adviser for its services and its expenses. For the most recent fiscal year, the Fund, after expense waivers and reimbursements, paid the Investment

Adviser 0.25% of the Fund's average daily net assets. A discussion of the Board's most recent review of the Fund's investment advisory contract will be available in the Fund's Semi-Annual Report for the period ending April 30, 2020.

The Investment Adviser has contractually agreed to limit the Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions, other expenditures that are capitalized in accordance with generally accepted accounting principles, and other extraordinary expenses not incurred in the ordinary course of the Fund's business) for Class N Shares to 0.35%, until March 1, 2021. The Expense Limitation Agreement may only be terminated during its term with approval of the Fund's Board.

### **Portfolio Managers**

Andrew P. Hofer and Neil Hohmann serve as co-portfolio managers of the Fund. As such they are jointly responsible for the day-to-day management of the Fund.

Andrew Hofer is a Managing Director of BBH&Co. with 31 years of combined industry and investment experience. Mr. Hofer holds a BA from Yale University and an MIA from the Columbia School of International and Public Affairs. He joined BBH&Co. in 1988. Mr. Hofer has served as a Managing Director since January 2000.

Neil Hohmann is a Managing Director of BBH&Co. with 22 years of investment experience. Mr. Hohmann holds a BA from Yale University and a PhD in Economics from the University of Chicago. He joined BBH&Co. in 2006.

Mr. Hohmann served as a Senior Vice President from 2010 to 2017. Mr. Hohmann has served as a Managing Director since 2017.

The Fund's SAI provides additional information about the portfolio managers' compensation, management of other accounts and ownership of shares of the Fund.

## IV. SHAREHOLDER INFORMATION

### Fund Valuation Policies

The Fund's NAV is normally determined once daily at 4:00 p.m., Eastern Time on each day the NYSE is open for regular trading ("Business Day"). The Fund does not calculate its NAV on days the NYSE is closed for trading. Information that becomes known to the Fund or its agents after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of a security or the NAV determined earlier that day. The Fund reserves the right to change the time its NAV is calculated if the Fund closes earlier, or as permitted by the SEC.

The determination of the Fund's NAV is made by subtracting from the value of the total assets of a share class the amount of liabilities attributable to that class and dividing the difference by the number of shares outstanding of that class at the time the determination is made. The value of the Fund's portfolio may change on days when the Fund is not opened for business and not available for purchase or redemption of Fund shares.

The Fund has a valuation policy which requires that if market quotations are unavailable or available but considered unreliable, then that security price should be overridden and a fair valuation price be determined and used. The Fund generally values fixed income securities according to prices furnished by brokers and dealers or an independent pricing service using data reflecting the earlier closing of the principal markets for those securities. Prices

obtained from pricing services may be based on, among other things, information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Fixed income securities with remaining maturities of less than 60 days at time of purchase may be valued at amortized cost, which approximates fair value.

Investments for which market quotations or market-based valuations are not readily available, or are available but deemed unreliable, are valued at fair value in accordance with procedures approved by the Board. The Board has delegated to the Investment Adviser the responsibility for applying the Board-approved fair valuation procedures. Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information, bid/ask information, broker quotes, pricing services prices), including where events occur after the close of the relevant market, but prior to the NYSE close, that materially affect the price of the security or other asset. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, the markets on which the securities trade are not open for trading for the entire day and no other market prices are available.

Fair value represents a good faith approximation of the value of a security. The fair value of one or more securities may not, in retrospect, be the price at which those assets could have been sold during the period in which the particular fair values were used in determining the Fund's net asset value.

## Revenue Sharing

BBH&Co. may make payments for marketing, promotional or related services provided by Financial Intermediaries that sell shares of the Fund. These payments are often referred to as “revenue sharing payments.” The level of such payments may be based on factors that include, without limitation, differing levels or types of services provided by the intermediary, the expected level of assets or sales of shares, access to an intermediary’s personnel and other factors. Revenue sharing payments are paid from BBH&Co.’s own legitimate profits and its own resources (not from the Fund), and may be in addition to any shareholder servicing payments that are paid by the shareholder servicing agent to the Financial Intermediaries. In some circumstances, such payments may create an incentive for a Financial Intermediary or its employees or associated persons to recommend or sell shares of a particular Fund to you instead of recommending shares offered by competing investment companies.

Contact your Financial Intermediary for details about revenue sharing payments.

## Description of Share Classes

The Fund offers Class N Shares and Class I Shares through this Prospectus, each representing interests in a single portfolio of securities. Class N Shares and Class I Shares have different operating expenses which affect their performance. Neither Class N Shares nor Class I Shares automatically convert to any other class of shares of the Fund.

## Account Transactions

### *Purchase of Shares*

The Fund offers its shares on a continuous basis at the current NAV without a sales charge. Investors may purchase shares on any day the Fund's NAV is calculated. The Fund executes purchases of its shares at the NAV next determined after the Fund receives the purchase order in good order. Generally, a purchase order is considered to be in good order when the purchase payment is converted to federal funds. The Fund reserves the right to determine the purchase orders for Fund shares that it will accept. An investor may place purchase orders for Fund shares directly through the Transfer Agent. Such orders will be priced at the NAV next calculated after the Fund receives payment in good order. Such orders are held directly in the investor's name on the books of the Fund and the investor is responsible for arranging for payment of the purchase price of Fund shares.

In addition to being able to buy and sell Fund shares directly through the Transfer Agent, investors may also buy or sell shares of the Fund through accounts with a Financial Intermediary that is authorized to place trades in Fund shares for their customers. Such shares are held in the Financial Intermediary's name on behalf of that customer pursuant to arrangements made with that customer. Each Financial Intermediary arranges payment for Fund shares on behalf of its customers and may charge a transaction fee payable to the Financial Intermediary on the purchase of Fund shares.

Shares of the Fund have not been registered for sale outside the U.S. The Fund generally does not sell shares to investors residing outside the U.S., even if they are U.S. citizens or lawful permanent residents, except to investors with U.S. military APO or FPO addresses.

### ***Investment Minimums\****

Minimum initial and subsequent purchase amounts vary.

	<u>Class N</u>	<u>Class I**</u>
Initial Purchases	\$5,000	\$50,000
Subsequent Purchases	\$1,000	\$ 5,000

\* The Fund may change these investment minimums from time to time. A Financial Intermediary may also establish and amend, from time to time, minimum initial and/or subsequent purchase requirements for its customers. The Fund may waive the initial and subsequent investment minimums for purchases by financial intermediaries.

\*\* The Fund has waived the investment minimums for all BBH&Co. Partners, employees, Fund Trustees and their respective family members, who wish to invest in the Fund's Class I Shares.

### ***Redemption of Shares***

The Fund prices a redemption at the NAV next calculated after the Fund receives the request in good order. The Fund normally determines the Fund's NAV daily at 4:00 p.m. Eastern Time on each day that the equity markets of the NYSE are open for a regular day of trading. Under normal market conditions, redemption requests received in good order before 4:00 p.m. Eastern Time on any Business Day will be executed at that day's NAV. Orders accepted after 4:00 p.m. will be executed at the next day's NAV. Redemption requests accepted before 4:00 p.m. Eastern Time on any Business Day will typically be paid by the Business Day following the date on which the redemption request was received in good order. Redemption requests will be paid by federal funds wire transfer to the shareholder's designated account. In order to meet the redemption request, the Fund typically expects to use available cash (or cash equivalents) or by selling portfolio securities. These methods may be used during both normal and stressed market conditions. While the Fund typically makes payments of redemption requests in cash, it has reserved the right to pay redemption proceeds by a distribution in-kind of portfolio securities when it deems appropriate.

### ***How to Redeem Fund Shares***

Shareholders must redeem shares held by a Financial Intermediary through that Financial Intermediary and follow the Financial Intermediary's procedures for redeeming Fund shares. For more information about how to redeem shares through a Financial Intermediary, contact the Financial Intermediary directly.

Shareholders may redeem shares held directly with the Fund by submitting a redemption request to the Transfer Agent. The Fund pays proceeds resulting from such redemption directly to the shareholder generally on the next Business Day after the redemption request is executed.

### ***Redemptions by the Fund***

The Fund has established a minimum account size of \$5,000 for Class N Shares and \$50,000 for Class I Shares, which may be changed from time to time in its discretion. Except in circumstances where the minimum account size has been changed or waived, if the value of an account held directly with the Fund falls below the minimum account size because of a redemption of shares, the Fund reserves the right to redeem the shareholder's remaining shares. If such remaining shares are to be redeemed, the Fund will notify the shareholder and will allow the shareholder 60 days to make an additional investment to meet the minimum requirement before the redemption is processed.

Each Financial Intermediary may establish its own minimum account requirements for its customers, which may be lower than those established for accounts held with the Fund.

### *Further Redemption Information*

Redemptions of shares result in taxable events for a shareholder who may realize a gain or a loss.

The Fund has reserved the right to pay redemption proceeds by a distribution in-kind of a security or securities from the Fund's portfolio (rather than cash). In the event that the Fund makes an in-kind distribution, you could incur brokerage and transaction charges when converting the securities to cash. Additionally, securities received through an in-kind redemption may be subject to market risk until such time as you can dispose of the securities. The Fund does not expect to make in-kind distributions, but if it does, the Fund will pay, during any 90-day period, your redemption proceeds in cash up to either \$250,000 or 1.00% of the Fund's net assets, whichever is less. In the event that the Fund meets a redemption request through a distribution in-kind, the Fund will analyze a variety of factors when selecting securities, including, but not limited to, tax implications, liquidity implications, portfolio transaction costs, fees and other costs associated with the transaction.

The Fund may suspend a shareholder's right to receive payment with respect to any redemption or postpone the payment of the redemption proceeds for up to seven days and for such other periods as applicable laws may permit.

### *Frequent Trading Policy*

Given the short-term nature of the Fund's investments, the Fund does not anticipate that in the normal course frequent or short-term trading into and out of the Fund will have significant adverse consequences for the Fund and its shareholders. For this reason, the Fund's Board has not adopted policies or procedures to monitor or discourage frequent or short-term trading of the Fund's shares.

## Dividends and Distributions

The Fund declares dividends daily, distributes net investment income monthly and net realized gains, if any, annually. The Fund may pay additional distributions and dividends at other times if necessary for the Fund to avoid federal income or excise tax. The Fund expects distributions to be primarily from income.

Shares normally begin to earn dividends on the business day after payment is received in good order by the Fund's transfer agent. Shares earn dividends through the date of a redemption. Shares redeemed on a Friday or prior to a holiday will continue to earn dividends until the next business day. If you redeem all of your shares at any time during the month, you will receive all dividends earned through the date of redemption. When you redeem only a portion of your shares, all dividends accrued on those shares will be reinvested, or paid in cash, on the next dividend payment date.

Unless a shareholder whose shares are held directly in the shareholder's name on the books of the Fund elects to have dividends and capital gains distributions paid in cash, the Fund automatically reinvests dividends and capital gains distributions in additional Fund shares without reference to the minimum subsequent purchase requirement. There are no sales charges for the reinvestment of dividends.

Each Financial Intermediary may establish its own policy with respect to the reinvestment of dividends and capital gains distributions in additional Fund shares.

## Taxes

**Please consult your personal tax adviser regarding your specific questions about federal, state and local income taxes.** Below is a summary of some important tax issues that affect the Fund and its shareholders. This summary is based on current tax laws, which are subject to change. Unless you are a tax-exempt entity or your investment in Fund shares is made through a tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when the Fund makes distributions and when you sell Fund shares.

The Tax Cuts and Jobs Act (the “Tax Act”) made significant changes to the U.S. federal income tax rules for taxation of individuals and corporations, generally effective for taxable years beginning after December 31, 2017. Many of the changes applicable to individuals are temporary and would apply only to taxable years beginning after December 31, 2017 and before January 1, 2026. There are only minor changes with respect to the specific rules applicable to a regulated investment company, such as the Fund. The Tax Act, however, made numerous other changes to the tax rules that may affect shareholders and the Fund. You are urged to consult your own tax advisor regarding how the Tax Act affects your investment in the Fund.

Distributions you receive from the Fund will generally be subject to federal income tax, and any state or local income taxes, whether or not you reinvest them in additional shares. Income distributions are generally taxable as ordinary income. Any distributions of net capital gain (the excess of the Fund’s net long-term capital gain over its net short-term capital loss) are taxable as long-term capital gains, regardless of how long you have owned your shares. Distributions of net short-term capital gains are taxable as ordinary income. The Fund does not expect a substantial portion of distributions to be treated as qualified dividend income, which is taxable to non-corporate shareholders at reduced rates, or to be eligible for the dividends-received deduction for corporate shareholders.

The Fund (or its administrative agent) will report to shareholders annually the U.S. federal income tax status of all Fund distributions.

Because the Fund may invest in foreign securities, it may be subject to foreign withholding taxes with respect to dividends or interest it receives from sources in foreign countries.

U.S. individuals with income exceeding certain thresholds are subject to a 3.8% Medicare contribution tax on all or a portion of their “net investment income,” which includes interest, dividends, and certain capital gains (including capital gains distributions and capital gains realized on the sale or

exchange of shares of the Fund). This 3.8% tax also applies to all or a portion of the undistributed net investment income of certain shareholders that are estates and trusts.

If the Fund declares a dividend in October, November or December, payable to shareholders of record in such a month, and pays it in January of the following year, shareholders will be taxed on the dividend as if it were received in the year in which it was declared.

You may want to avoid buying shares when the Fund is about to declare a dividend or other distribution because such dividend or other distribution will be taxable to you even though it may effectively be a return of a portion of your investment.

Each sale or redemption of Fund shares may be a taxable event. The gain or loss on the sale or redemption of the Fund's shares generally will be treated as a short-term capital gain or loss if you held the shares for 12 months or less or a long-term capital gain or loss if you held the shares for longer than 12 months. Any loss recognized by you on the sale or redemption of Fund shares with a tax holding period of six months or less will be treated as a long-term capital loss to the extent of any amounts treated as distributions to you of long-term capital gain with respect to such shares.

If you are neither a citizen nor a resident of the United States, the Fund will withhold federal income tax at the rate of 30% (or such lower rate as may be determined in accordance with any applicable treaty) on ordinary dividends and other payments that are subject to such withholding. The 30%

withholding tax will not apply to dividends that the Fund reports as (a) interest-related dividends, to the extent such dividends are derived from the Fund's "qualified net interest income," or (b) short-term capital gain dividends, to the extent such dividends are derived from the Fund's "qualified short-term gain." "Qualified net interest income" is the Fund's net income derived from U.S.-source interest and original issue discount, subject to certain exceptions and limitations. "Qualified short-term gain" generally means the excess of the net short-term capital gain of the Fund for the taxable year over its net long-term capital loss, if any.

If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you will be subject to backup withholding on your redemption proceeds, distributions and dividends. The backup withholding rate is 24%. Backup withholding will not, however, be applied to payments that have been subject to the 30% withholding tax applicable to shareholders who are neither citizens nor residents of the United States.

The tax treatment of the Fund and its shareholders residing in those states and local jurisdictions that have income tax laws might differ from the treatment under federal income tax laws. Therefore, distributions to shareholders may be subject to additional state and local taxes. Shareholders are urged to consult their personal tax advisors regarding any state or local taxes.

**For additional information regarding taxes, please refer to the SAI.**

## V. FINANCIAL HIGHLIGHTS

The Financial Highlights tables are intended to help an investor understand the financial performance of the Fund's Class N Shares and Class I Shares for the past five years. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by Deloitte & Touche LLP, whose report, along with the Fund's financial statements, are included in the Fund's annual report, which is available upon request.

Selected per share data and ratios for a single share of Class N Shares outstanding throughout each year.

# BBH PRIVACY NOTICE

## What does Brown Brothers Harriman & Co. do with your personal information?

WHY?
Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.
WHAT?
The types of personal information we collect, and share depend on the product or service you have with us. This information can include:
<ul style="list-style-type: none"> <li>• Social Security number</li> <li>• Income</li> <li>• Account Balances</li> <li>• Transaction history</li> <li>• Credit history</li> <li>• Credit scores</li> </ul>
When you are <i>no longer</i> our customer, we continue to share your information as described in this notice.
HOW?
All financial services companies need to share customers' personal information to run their everyday business. In the chart below, we list the reasons financial services companies can share their customers' personal information; whether BBH shares that information; and whether you can limit this sharing.

Reasons financial services companies can share your personal information	Does BBH share?	Can you limit BBH sharing?
<b>For our everyday business purposes</b> — such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
<b>For our marketing purposes</b> — to offer our products and services to you	Yes	No
<b>For joint marketing with other financial companies</b>	No	Does Not Share
<b>For our affiliates' everyday business purposes</b> — information about your transactions and experiences	Yes	No
<b>For our affiliates' everyday business purposes</b> — information about your creditworthiness	No	Does Not Share
<b>For non-affiliates to market to you</b>	No	Does Not Share

**QUESTIONS?** Call 800-285-5093 or go to [www. https://www.bbh.com/en-us/our-firm/policies-and-disclosures/privacy-policy](https://www.bbh.com/en-us/our-firm/policies-and-disclosures/privacy-policy).

<b>Who we are</b>	
<b>Who is providing this notice?</b>	Brown Brothers Harriman & Co. and affiliated entities (see “Other Important Information”).
<b>What we do</b>	
<b>How does BBH protect my personal information?</b>	To protect your personal information from unauthorized access and use, BBH uses security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.
<b>How does BBH collect my personal information?</b>	BBH collects your personal information, for example, when you: <ul style="list-style-type: none"> <li>• Open an account</li> <li>• Make a deposit</li> <li>• Initiate a transaction</li> <li>• Transfer funds</li> <li>• Make modifications to your account</li> </ul>
<b>Why can't I limit all sharing?</b>	Federal law gives you the right to limit only: <ul style="list-style-type: none"> <li>• Sharing for affiliates’ everyday business purposes—information about your creditworthiness</li> <li>• Affiliates from using your information to market to you</li> <li>• Sharing for nonaffiliates to market to you</li> </ul> State laws and individual companies may give you additional rights to limit sharing.
<b>Definitions</b>	
<b>Affiliates</b>	Companies related by common ownership or control. They can be financial and nonfinancial companies. <ul style="list-style-type: none"> <li>• <i>Brown Brothers Harriman Investor Services Ltd., Brown Brothers Harriman (Luxembourg) S.C.A., Brown Brothers Harriman Fund Administration Services (Ireland) Limited., Brown Brothers Harriman (Poland) Sp. z o.o (for a list of all affiliates see: <a href="https://www.bbh.com/en-us/contact-us/office-locations">https://www.bbh.com/en-us/contact-us/office-locations</a>).</i></li> </ul>
<b>Nonaffiliates</b>	Companies not related by common ownership or control. They can be financial and nonfinancial companies. <ul style="list-style-type: none"> <li>• <i>Subject to applicable law, you should expect that BBH will share your information with nonaffiliate entities for various reasons, such as: invoicing, statement printing and transaction processing</i></li> </ul>
<b>Joint marketing</b>	A formal agreement between nonaffiliated financial companies that together market financial products or services to you. <ul style="list-style-type: none"> <li>• <i>BBH does not engage in joint marketing with nonaffiliate entities.</i></li> </ul>

**MORE INFORMATION ON THE FUND IS AVAILABLE FREE UPON REQUEST,  
INCLUDING THE FOLLOWING:**

**Annual/Semi-Annual Report**

The Fund's annual and semi-annual reports to shareholders provide the Fund's investments, performance and list of portfolio holdings. The Fund's annual report contains a letter from the Fund's Investment Adviser discussing recent market conditions, economic trends and Fund strategies that significantly affected the Fund's performance during its last fiscal year.

To reduce expenses, we mail only one copy of the Fund's prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call us at 1-800-575-1265 or if your shares are held through a financial institution please contact them directly. We will typically send you individual copies within three business days after receiving your request.

**Statement of Additional Information**

The SAI provides more details about the Fund and its policies and information on the Fund's non-principal investment strategies. A current SAI is on file with the SEC and is incorporated by reference (and is legally considered part of this Prospectus).

**To obtain the SAI, Annual Report and Semi-Annual Report without charge:**

By telephone: Call 1-800-575-1265
